## LEAGUE ASSEMBLY CURBS DEBATE IN EFFORT TO GET ITS WORK UNDER WAY

Open Discussion Eliminated  
to Great Degree by Refer-  
ring Questions Directly to  
Committees, but Minutes  
of Meetings Will Be Pub-  
lished.

### COUNCIL REPORT AT PLENARY SESSION

Argentine Delegate Says Suc-  
cess of League Requires  
Complete Membership, In-  
cluding That of the United  
States.

By the Associated Press.  
GENEVA, Nov. 17.—A plenary  
session was held by the assembly of the  
League of Nations this morning to  
consider a report from the council of the  
league relative to its activities  
since its formation.

League Very Much Alive.  
"Very much alive," is the condi-  
tion of the League of Nations, as  
shown by the report of the Execu-  
tive Council, Lord Robert Cecil, of  
England, sitting as a delegate from  
south Africa, declared at today's  
session.

Speaking on the report made by  
the council to the assembly, Lord  
Robert remarked:  
"While it has been said in some  
countries that the league is dead,  
the council's report shows it to be  
very much alive."

The work of the league to date had  
been \$500,000 (nominally \$2,500,-  
000), the delegate said.

"This sounds like a large sum to  
most minds," he continued, "but  
compare the amount with the sum  
of the cost of the war and you have  
a ridiculously cheap insurance."

The work of the assembly meeting  
began speeding up today with the  
organization of the six committees  
appointed at the opening session  
Monday, and the election of chair-  
man. It has been decided that these  
committees will work in private, but  
that the minutes of their meetings  
will be published as soon as possible.  
Subjects will be referred to them by  
the assembly without debate.

Honorable Freyre, head of the  
Argentine delegation, took the floor  
first after the opening of the assem-  
bly session today. Speaking in  
French, he reviewed the attitude of  
Argentina during the war. He fol-  
lowed this by declaring that the suc-  
cess of the league required a most  
complete membership, referring to  
the necessity, in his view, of the  
United States coming in.

Debate on Open Discussion.  
How far the principle of open dis-  
cussions might apply to the work  
of the assembly was a question which  
furnished the feature of yesterday's  
session. It brought into sharp  
contrast two of the chief figures  
among the delegates, Lord Robert  
Cecil, representing South Africa,  
and M. Viviani, Italian.

M. Viviani gained the first general  
applause since the opening of the  
assembly by a plea for greater action  
and less discussion. He pointed out  
that under the rules all questions  
were to be discussed by the times  
once before reference to committee,  
once in committee and again after  
they were reported on. Signor Vi-  
viani's motion that the rule be elimi-  
nated and questions referred direct  
to committee without debate pre-  
vailed.

Several small conferences between  
delegates preceded the opening of  
the morning session.  
The impression prevailed that  
some of the discussions were rushed  
by the guiding minds of the assem-  
bly in their haste to get on with the  
work, but some persons expressed  
the belief that if some intelligent  
handling of debate was not carried  
out the result would be interminable  
discussion.

Bernstorff Expected.  
Count von Bernstorff, former Ger-  
man ambassador to the United States,  
is expected to arrive in Geneva to-  
morrow.

## President Cables Greeting to League; Hopes It Will Accomplish Valuable Work

WASHINGTON, Nov. 17.—PRESIDENT WILSON, in a  
message sent today to Paul  
Hymans, president of the  
League of Nations assembly at  
Geneva, Switzerland, extended  
his personal greetings to the as-  
sembly and expressed the "hope  
and belief that their labors will  
be of immense value to the whole  
civilized world."

The message was an acknowl-  
edgment of one from President  
Hymans conveying an expres-  
sion of sympathy voted to Presi-  
dent Wilson unanimously upon  
the opening of the assembly of the  
league last Monday. M. Hy-  
mans' message said:

"The assembly of the League  
of Nations by unanimous vote  
has instructed me to send you  
its warmest greetings and to ex-  
press its earnest wishes that  
you may speedily be restored to  
complete health. The assembly  
recognizes that you have done  
perhaps more than any other

## DRY ENFORCEMENT OFFICER INDICTED ON MURDER CHARGE

Grand Jury at Edwardsville  
Returns Bill Against S.  
Glenn Young in Death of  
Luka Vukovic.

S. Glenn Young of East St. Louis,  
a Federal prohibition enforcement  
officer, was indicted by the Madison  
County grand jury at Edwardsville  
at 4 o'clock this afternoon for the  
murder of Luka Vukovic, 1237 G  
street, Madison, on the night of Nov.  
5, when Young and Walter Cowell,  
a Grand Rapids, Mich., police-  
man, raided Vukovic's home. Cowell,  
who admitted he fired three shots,  
was not indicted because he was  
a witness before the grand jury  
and will be a witness in the trial of  
Young.

Vukovic's widow gave her testi-  
mony yesterday. Before going into  
the grand jury room she said that  
the officers broke into the bedroom  
occupied by her husband and herself  
and compelled her husband to accom-  
pany them into the next room,  
from which the stairway descended  
to the basement, and that he did not  
take his revolver with him, which  
was under the mattress.

The testimony of Young at the in-  
quest was that as he and Cowell  
emerged from the basement, after  
finding whisky and mash, Vukovic  
snapped a revolver at him.  
When the shooting was over Vukovic  
was lying dead on the floor with  
eight bullets in his body and a re-  
volver under him. The record of  
the inquest is obscure as to this  
version.

### \$25 LIMIT ON COFFIN COST IN WILL OF RABBI SPITZ

Request in Instrument Drawn Up in  
1908; Estate to Be Held in  
Trust for Widow.

The will of Rabbi Moritz Spitz,  
filed in the Probate Court today, di-  
rects that the estate be held in trust  
by his widow, Esther, until her  
death, when it shall go to the chil-  
dren. A brother, Ben Spitz of Kan-  
sas City, also is named as a trustee.  
The residence at 3539 Flora court  
is to go to the widow and \$5 is be-  
queathed to each of the children,  
Isador, Alma Selma and Edna  
Spitz and Mrs. Rosa Neuhauer. The  
will provides that if any daughter  
marries she is to be given \$1000 for  
a trousseau. The will requests that  
Mrs. Spitz continue her membership  
and interest in the B'nai B'rith con-  
gregation, reciting that the rabbi de-  
voted his life to building up this  
church.

Rabbi Spitz's will requests that he  
be given a cheap burial under Mas-  
sonic auspices. The coffin should  
not exceed \$25 in cost, no flowers  
are to be used and an unostentatious  
gravestone is to be erected at Mt.  
Sinal, incurring for this an like ex-  
pense as possible. He requests that  
the remains of his daughter, Hilda,  
be disinterred and buried next to his  
grave. The wife and children are  
instructed to care for the grave of  
his father. The will made in June  
1908. No valuation is placed on  
the estate.

### 10-CENT FARE FOR ST. JOSEPH

Special to the Post-Dispatch.  
ST. LOUIS, Nov. 17.—A  
10-cent car fare will go into effect  
in St. Joseph tomorrow morning,  
the company announced last night.  
The company interpreted a decision by  
Judge Van Valkenburgh last week as  
authorizing it to raise the fare from  
7 cents to 10 cents, the present rate.  
Judge Van Valkenburgh ruled  
that rates should be based on a val-  
uation of the company's property at  
present costs.

## FEDERAL THREAT TO REVOKE RIGHTS OF WESTERN UNION

State Department Issues First  
Statement in Controversy  
With Company Over Cable  
Messages.

### PRIVILEGES GIVEN TO OTHERS DEMANDED

Messages Originating Out-  
side Country Refused by  
Company—U. S. Charged  
More Than Britain, It Is  
Said.

By the Associated Press.  
WASHINGTON, Nov. 17.—A  
veiled threat that the permits grant-  
ed for the landing of Western Union  
cables in the United States will be  
revoked unless the company con-  
tinues to accord the American Gov-  
ernment the same privileges that it  
accords to the British and other  
governments in handling cable mes-  
sages is contained in a formal state-  
ment issued today by the State De-  
partment.

The Western Union Telegraph  
Co., says the announcement, not only  
has refused to accept any Govern-  
ment cable messages without re-  
payment of bills, but also has re-  
fused to carry at the reduced Gov-  
ernment rate messages originating  
outside of the United States.

First Statement by Department.  
This was the first statement by  
the department regarding its con-  
troversy with the telegraph com-  
pany, which in several months  
standing and which culminated with  
the notice from the company to the  
department that cable messages of-  
fered it for transmission after Nov.  
10 would have to be paid for in ad-  
vance and also that the Government  
would no longer be granted the re-  
duced rate on messages originating  
abroad.

After reviewing the differences  
regarding the settlement for cable  
messages previously transmitted, the  
department's announcement de-  
clared that the legal principles con-  
trolling the landing and regulation  
of cables in the United States were  
well established and that "in the  
absence of congressional legislation  
these matters are regulated by the  
executive by virtue of his authority  
with respect to the conduct of rela-  
tions with foreign countries."

"The executive," said the state-  
ment, "may prevent the landing of a  
cable or permit it on conditions  
which will protect the interests of  
the United States. If a landing  
has been made without the consent  
of the Government the operation of  
the line may be prevented."

Policy of Government.  
"It has been the uniform policy of  
the Government to allow the landing  
of cables only on condition that the  
Government of the United States  
shall be entitled to exercise and to  
enjoy the same privileges with re-  
gard to the use of the cable and the  
lines as are exercised and enjoyed  
by any foreign Government."

"Nothing unreasonable has been  
asked of the Western Union Co.,  
nothing not required of other com-  
panies; much less has been asked  
than some companies give the Gov-  
ernment. It may be mentioned that  
certain companies accord to the Gov-  
ernment of the United States entire-  
ly free cable service for official mes-  
sages."

"Obviously," said the department's  
statement, "the United States gov-  
ernment is not to be expected to allow the Western  
Union company, an American cor-  
poration, to charge for its messages  
twice the rate charged, for example,  
the British Government, nor to ac-  
cede to a requirement that the or-  
dinary practice of business with  
respect to periodical settlement of ac-  
counts shall be set aside in dealings  
with our Government."

### YOUTH CONFESSES THAT HE AIDED IN MAIL CAR ROBBERY

By the Associated Press.  
COUNCIL BLUFFS, Ia., Nov. 17.—  
Fred E. Poffenberger, 19 years  
old, of this city has been arrested in  
connection with the mail car rob-  
bery here Saturday night. He was  
taken into custody by Federal of-  
ficers and postoffice men and it is  
said has confessed to having taken  
part in the robbery. His arrest is  
said to have resulted from state-  
ments made by Merle Phillips.

Poffenberger was arrested last  
night and is said to have been ques-  
tioned throughout the night by Gov-  
ernment men and today confessed  
to having assisted in the robbery.  
In Poffenberger's confession "he  
states, it is understood, that it was  
himself who cut open the stolen mail  
sack which was found and  
which is reported to have contained  
approximately three quarters of a  
million dollars in Government bonds.  
Poffenberger refuses to say what  
became of the bonds."

## ALL SOLDIERS TO CARRY POISON GAS IF WE GO TO WAR AGAIN

Death-Dealing Substance Has  
Been Solidified for Placing  
in Man's Pocket.

Special to the Post-Dispatch.  
WASHINGTON, Nov. 17.—If an-  
other war comes in which the United  
States is involved, every soldier in  
our forces will carry a package of  
poison gas as part of his equipment.  
Already the Chemical Warfare Ser-  
vice of the army, of which Brig. Gen.  
Amos A. Fries is director, has per-  
fected the solidification of poison gas  
so that it can be carried in a man's  
pocket. This particular type of gas  
is designed for gas cloud attacks.

The Chemical Warfare Service is  
conducting research work in poison  
gases at the Edgewood arsenal,  
where it has an up-to-date plant and  
where two battalions of gas troops  
are constantly engaged in experi-  
ments. Problems of production and  
distribution as well as the determina-  
tion of the ingredients of the several  
gases are being studied constantly.  
Experiments are being made with  
different gases at varying strength  
on white mice, rats, guinea pigs, and  
at certain stages on dogs. Experi-  
ments in which men subject them-  
selves to gas attacks are few and are  
handled with the greatest possible  
care to avoid permanent injury.

The American Chemical Society is  
co-operating actively with the Chemi-  
cal Warfare Service just as Premier  
Lloyd George announced in Parlia-  
ment the British civilian chemists  
are co-operating with the military in  
Great Britain in developing poison  
gas and working out offensive and  
defensive problems and uses.

A committee of 15 has been ap-  
pointed by the American Chemical  
Society to co-operate directly with  
the Chemical Warfare Service, and  
arrangements are now being made  
for the appointment of another com-  
mittee of 50 prominent chemists who  
may be called upon from time to  
time to assist in solving specific  
problems.

### BIRD AND INSECT COLLECTION VALUED AT \$15,000 RUINED

Took 25 Years to Assemble  
Specimens Destroyed by Fire-  
men Fighting \$15 Blaze.

Water and chemicals thrown by  
the Webster Groves Fire Depart-  
ment in extinguishing a fire that did  
about \$15 damage to the home of  
Herman Schwartz, a collector, today  
ruined a collection of insects, butter-  
flies and birds which it had taken  
Schwartz 25 years to assemble, and  
which he valued at more than \$15,-  
000.

The damage inflicted by the fire  
was negligible, and can be repaired  
by a carpenter in a few hours. It  
was caused by an overheated stove-  
pipe which set fire to the ceiling of  
the first floor. It was the water and  
chemicals that damaged the collec-  
tion.

The flames came through the sec-  
ond floor, around the stovepipe, in  
the room in which the collection  
was. Schwartz was not at home, and  
the firemen flooded the room to put  
out the fire. When Schwartz arrived  
home from his office at the Schwarz-  
baum, 1215 Pine street, he found  
his collection a wreck. He said it  
was the largest and most val-  
uable private collection in Missouri.  
His home is at 720 Clark street.

This was the fifteenth fire in seven  
days at Webster Groves.

### TRUST CO. COLLECTOR SAYS HE WAS ROBBED BY 2 MEN

Order From "Yeggs" Backed by Re-  
volver, Nets Nearly \$300 and  
Ford Runabout.

Warren Beutman, 29 years old, of  
6145 Michigan avenue, a collector  
for the Mercantile Trust Co., tele-  
phoned a report to the Mounted Dis-  
trict Police Station from Highland  
west Florida avenue, at noon  
last night. He said he had been  
robbed by two men. He had his hand  
collected and the Ford runabout he  
was driving, which belonged to the  
trust company, about a mile south  
on Euclid avenue.

Beutman said he was driving  
north on an unimproved stretch near  
the Terminal Railroad when two  
young men wearing overcoats and  
caps stopped him. One of them draw-  
ing a revolver, "Hand us all the  
money you've got," one of them said.  
Beutman turned over between  
\$250 and \$300 cash and a check for  
\$23. Then he was ordered out of  
the machine and the men drove off.  
Police were sent to investi-  
gate.

### TURKS REPORTED DEMANDING SOVIET RULE IN ARMENIA

By the Associated Press.  
CONSTANTINOPLE, Nov. 17.—  
The Turkish Nationalists have de-  
manded that the Armenians estab-  
lish a Soviet Government under  
Turkish protection, and the situation  
in Armenia has become most grave.

### ALL AMERICANS OUT OF CRIMEA

State Department Advised of Safe  
Evacuation.  
WASHINGTON, Nov. 17.—All  
Americans on the Crimean peninsula  
in South Russia have been safely  
evacuated, the State Department was  
advised today.

## LABOR UNIONS TO OPPOSE CONTRACT ORDINANCE REPEAL

Streets and Sewers, Commit-  
tee Decide to Join Legis-  
lative Body of Aldermen in  
Considering Change.

### PUBLIC HEARING ON QUESTION TO BE HELD

Secretary of Building Trades  
Council Says Federal Re-  
serve Bank Order Is Cause  
of Existing Situation.

The Street and Sewers Commit-  
tee of the Board of Aldermen today  
decided to act with the Legislative  
Committee and call a public hear-  
ing on the question of repealing Or-  
dinance 30720, which provides that  
the prevailing scale, equivalent to  
the union scale of wages, shall be  
paid by contractors going city work,  
and that only American citizens shall  
be employed.

The repeal has been asked for by  
the Board of Public Service and is  
opposed by labor organizations. At  
the committee meeting today Presi-  
dent Kinsey of the Board of Public  
Service said much street improve-  
ment work had been held up because  
of the refusal of contractors to sub-  
mit bids while the ordinance is in  
effect.

One Possible Solution.  
One solution, he said, might be for  
the city to do the work without let-  
ting contracts, but this would neces-  
sitate a fund of not less than \$1,-  
500,000 to start with.

City Counselor Waugh told the  
committee he had passed the or-  
dinance and had pronounced it  
valid. Attorneys for contractors  
have questioned its validity. Daues  
said the ordinance was based on one  
which has been held to be valid in  
Oklahoma.

Months ago, Cassidy, secretary of  
the Building Trades Council, spoke  
against the repealing of the bill. He  
said it was opposed only by the Mu-  
nicipal Contractors' Association,  
which, he said, controls supplies of  
material used in municipal work,  
and wants to obtain labor as cheap-  
ly as possible. He denied the con-  
tention of contractors that bidders  
will not loan money for public work  
because they doubt the validity of  
the ordinance. The real reason, Cas-  
sidy said, was that the Federal Re-  
serve System had instructed bank-  
ers not to loan money for construction  
work until the prices of materials  
come down.

To Hold Public Hearing.  
Cassidy said that in his opinion  
the best system would be for the  
city to do the work without the in-  
tervention of contractors.

Alderman Uell of the Legislation  
Committee has asked Associate City  
Counselor Hamilton to draft a re-  
peal ordinance to be considered at a  
conference with the Street and  
Sewers Committee and later at the  
public hearing, the date of which  
has not been fixed.

### BUFFALO, N. Y., SNOWBOUND WITH FALL OF FOOT IN 3 HOURS

By the Associated Press.  
BUFFALO, N. Y., Nov. 17.—Buf-  
falo is snowbound today in one of  
the worst November storms in its  
history. From 4 a. m. to 7 a. m.  
more than a foot of snow fell. Local  
and inter-city traffic was paral-  
yzed. Hundreds of people walked  
to their work, while thousands re-  
mained at home.

### LEAGUE COMMISSION FIRED ON BY LITHUANIAN TROOPS

By the Associated Press.  
WARSAW, Nov. 17.—Lithuanian  
troops fired on a League of Nations  
Commissioner as they were crossing  
"no man's land" from Gdansk to the  
Lithuanian border, according  
to dispatches received here to-  
day.

The members of the commission  
were carrying a white flag.

### FOUR MEN KILLED TRYING TO ESCAPE ARREST IN IRELAND

By the Associated Press.  
DUBLIN, Nov. 17.—Four men were  
killed when trying to escape from  
custody in County Clare, Ire-  
land, today, it was reported.

The men were shot dead by police  
while trying to escape from their  
custody, according to an official re-  
port.

## BRITISH EMBASSY OFFICIALS REFUSE TO ATTEND IRISH HEARING

MAN, CALLING ON  
WIFE, VISITOR HERE,  
SHOT FOR BURGLAR

Marissa (Ill.) Mining Engi-  
neer Wounded in Hall of  
Boarding House at 4057  
Washington Boulevard.

By the Associated Press.  
WASHINGTON, Nov. 17.—The  
British embassy today notified the  
Committee of One Hundred in-  
vestigating conditions in Ireland that  
it did not approve of the purposes to  
be served or the methods to be fol-  
lowed in the committee's hearings,  
to begin here tomorrow, and that,  
therefore, it could not accept the  
committee's invitation to be repre-  
sented.

The embassy's reply, addressed to  
Oswald Garrison Villard, editor of  
the Nation, who appointed the com-  
mittee, declared the only outcome of  
the inquiry would be the spread of  
propaganda, and that there was  
nothing in the composition of the  
committee itself to remove from it  
the idea that it was not impartial  
or prejudiced in advance.

The embassy also informed the  
committee through Villard that,  
while the British Government would  
personally wish to appear before the  
committee, it must be understood  
that the British Government could  
not undertake to guarantee the safe-  
ty of witnesses from personal at-  
tacks and violence at the hands of  
Irish Sinn Feiners or loyalists upon  
their return to England and Ireland.

The embassy added its conviction  
that it would be impossible for the  
committee to gather any evidence of  
value that could not be more readily  
obtained through "the ordinary  
agencies of publicity which operate  
freely in England and Ireland."

Witnesses in sufficient number to  
occupy the commission's time for  
three days already have obtained  
permission to testify, according to  
William MacDonnell, secretary of  
the British embassy, who was re-  
quested to be represented by counsel or an official  
spokesman. Similar action was tak-  
en in respect to Eamon de Valera,  
President of the Irish Republic.

Mrs. MacDonnell, widow of  
the late Lord MacDonnell, was  
advised that numerous witnesses will  
make the trip from Ireland to tell of  
conditions. Some already have sailed.  
Mrs. Terence MacSwiney, widow of  
the Lord Mayor of Cork, will  
sail November 24. Most of the others,  
however, were expected to start  
the ocean voyage at earlier dates.

The commission has urged that it  
be the first to "establish the facts  
in the case of Ireland," and to lay  
these facts before the world. It will  
attempt to develop the contentions  
of both sides to the controversy and  
grant a hearing to all who are fa-  
miliar with conditions in Ireland or  
who lately have made personal stud-  
ies of the situation. It was an-  
nounced.

Members of the commission, elected  
as a "high court" by the commit-  
tee of one hundred, include Ray-  
mond Robins, Chicago; Joseph W.  
Folk, St. Louis; Frederick C. Howe,  
Washington; Alexander P. Moore,  
Pittsburgh; Jane Addams, Chicago;  
James H. Maurer, president Pennsy-  
lvania Federation of Labor, and Sen-  
ator Walsh of Massachusetts.

Frederic C. Howe, former Com-  
missioner of Immigration at Ellis  
Island, presided at the brief session  
held today by the commission.  
Witnesses direct from Ireland will  
be the first to be heard by the com-  
mission.

The opening of the public hearings  
which had been set for today was  
postponed until tomorrow after the  
commission had been informed that  
two such witnesses had arrived at  
New York.

The witnesses at New York are  
John Durham, Acting Mayor of Bal-  
timore, and Dennis Morgan of  
Burlington.

### \$18,000 CONCEALED IN TIRE

By the Associated Press.  
HENDERSON, N. C., Nov. 17.—  
E. W. Graves, postoffice clerk, for-  
merly of Omaha, Neb., who was ar-  
rested charged with theft of regis-  
tered packages from the postoffice  
here, was said by postoffice inspec-  
tors yesterday to have had \$18,000  
concealed in an extra tire on his  
automobile when taken into custody.  
The inspectors said they found  
\$17,000 in cash and a \$1000 Liberty  
Bond in the tire.

### Declare There Is Nothing in Makeup of Committee of 100 to Show It Is Not Prejudiced.

### OBJECTS TO METHODS TO BE FOLLOWED

### Examination of Witnesses Who Have Just Arrived From Ireland Will Begin in Washington Tomorrow.

By the Associated Press.  
WASHINGTON, Nov. 17.—The  
British embassy today notified the  
Committee of One Hundred in-  
vestigating conditions in Ireland that  
it did not approve of the purposes to

nothing in the composition of the  
committee itself to remove from it  
the idea that it was not impartial  
or prejudiced in advance.

The embassy also informed the  
committee through Villard that,  
while the British Government would  
personally wish to appear before the  
committee, it must be understood  
that the British Government could  
not undertake to guarantee the safe-  
ty of witnesses from personal at-  
tacks and violence at the hands of  
Irish Sinn Feiners or loyalists upon  
their return to England and Ireland.

The embassy added its conviction  
that it would be impossible for the  
committee to gather any evidence of  
value that could not be more readily  
obtained through "the ordinary  
agencies of publicity which operate  
freely in England and Ireland."

Witnesses in sufficient number to  
occupy the commission's time for  
three days already have obtained  
permission to testify, according to  
William MacDonnell, secretary of  
the British embassy, who was re-  
quested to be represented by counsel or an official  
spokesman. Similar action was tak-  
en in respect to Eamon de Valera,  
President of the Irish Republic.

Mrs. MacDonnell, widow of  
the late Lord MacDonnell, was  
advised that numerous witnesses will  
make the trip from Ireland to tell of  
conditions. Some already have sailed.  
Mrs. Terence MacSwiney, widow of  
the Lord Mayor of Cork, will  
sail November 24. Most of the others,  
however, were expected to start  
the ocean voyage at earlier dates.

The commission has urged that it  
be the first to "establish the facts  
in the case of Ireland," and to lay  
these facts before the world. It will  
attempt to develop the contentions  
of both sides to the controversy and  
grant a hearing to all who are fa-  
miliar with conditions in Ireland or  
who lately have made personal stud-  
ies of the situation. It was an-  
nounced.

Members of the commission, elected  
as a "high court" by the commit-  
tee of one hundred, include Ray-  
mond Robins, Chicago; Joseph W.  
Folk, St. Louis; Frederick C. Howe,  
Washington; Alexander P. Moore,  
Pittsburgh; Jane Addams, Chicago;  
James H. Maurer, president Pennsy-  
lvania Federation of Labor, and Sen-  
ator Walsh of Massachusetts.

Frederic C. Howe, former Com-  
missioner of Immigration at Ellis  
Island, presided at the brief session  
held today by the commission.  
Witnesses direct from Ireland will  
be the first to be heard by the com-  
mission.

The opening of the public hearings  
which had been set for today was  
postponed until tomorrow after the  
commission had been informed that  
two such witnesses had arrived at  
New York.

The witnesses at New York are  
John Durham, Acting Mayor of Bal-  
timore, and Dennis Morgan of  
Burlington.

REAL 'SHAKE-UP'  
OF U. S. BUREAUS  
COMING, SAYS FESS

Congress to Get Facts of  
"Duplication of Effort"  
Before Intensive Pruning  
Begins.

WILL URGE ECONOMY  
TO CUT DOWN COSTS

Use of "Meat Ax" to Loo Off  
Surplusage of Clerks, Is  
Republican Program.

WASHINGTON, Nov. 17.—Rep-  
ublican congressional leaders are plan-  
ning the most intensive shake-up of  
the Government bureaus they have  
ever experienced. Early in the Six-  
teenth Congress, if not in the cur-  
rent session, the effort will be  
made to rid the Government of  
bureaus whose work is duplicated in  
other departments. A resolution is  
being prepared to create a special  
committee that is to uncover the  
branches that can be spared. Its  
work will in effect outline a reor-  
ganization of the Government agen-  
cies at Washington.

The changes will result, according  
to Chairman S. D. Fess of the Re-  
publican Congressional Campaign  
Committee, in the elimination of a  
lot of "dead wood."

Situation Carefully Studied.  
Chairman Fess, Representative  
from Nebraska and others have  
been studying the situation. They  
have found that in some cases over-  
head charges of administration could  
be greatly reduced by cutting out  
some of the bureaus. A complete  
list of the changes cannot be given  
until an investigation has begun.

It is said that nearly every execu-  
tive department is engaged in some  
definite educational function. The  
Bureau of Education, in the Interior  
Department, conducts but a part of  
the Government's educational work.  
Similar functions are performed un-  
der the Bureau of Indian Affairs in  
the Interior Department, in various  
bureaus of the Department of Agri-  
culture, in the Child Labor Bureau  
of the Labor Department, in the  
Public Health Service Bureau under  
the Treasury Department and in the  
Board of Vocational Education for  
Service Men. Chemistry experiments  
are conducted in the Bureau of  
Standards, Bureau of Chemistry,  
the Department of Agriculture, Pub-  
lic Health Service under the Treas-  
ury, and Prohibition Enforcement  
Division under the Commissioner of  
Internal Revenue.

"Bureaucracy" to Go.  
The Republicans, according to  
Fess, have marked for slaughter the  
system of "bureaucracy" that has  
grown up at Washington. In the  
following statement prepared he out-  
lined the program:

"Bureaucratic government is rapidly  
coming to be a problem which  
must be handled with vigor. The  
rule of bureau practice is not to get  
along with as little as possible, but  
rather to secure as much as possible.  
Congress, unacquainted with the de-  
tails of bureau work and disinclined  
to discontinue a service, becomes a  
victim of grasping bureaus whose  
concern in results is shown in in-  
creased demands upon the treasury.

"Each department reaching for  
new fields inevitably invades the  
specific fields occupied by other de-  
partments. Duplication is unavoid-  
able under this rule. In one case  
there is reported at least 10 different  
bureaus handling the same subject.  
This practice develops a duplication  
of bureaus, with a double overhead  
charge, double force of experts and  
expensive."

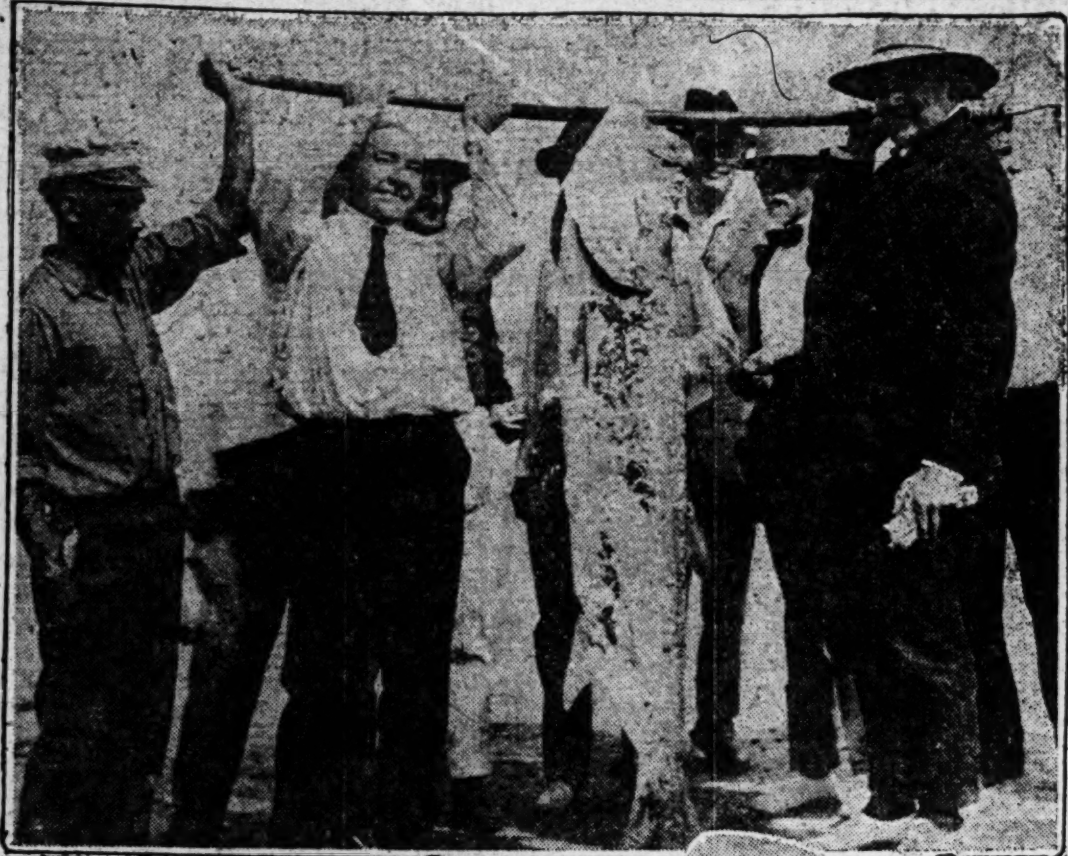

"The Bureau of Standards is sup-  
posed to represent the highest de-  
gree of ability in research along  
many lines. Its work is duplicated  
in many ways in the Bureau of  
Chemistry and in its other depart-  
ments. Congress makes appropriations  
for the agencies of investigation  
regardless of the number of dupli-  
cations, the unnecessary overhead  
and the needless force to reach a bet-  
ter result if properly segregated, or-  
dered and served by better trained  
as well as fewer research workers.

"Recent investigation disclosed  
some education function in almost  
every department of the Government.  
These functions centralized under  
one head would insure better results  
at a great saving of public money.

"Congress must take the necessary  
steps to get these facts of dupli-  
cation, then the steps for a reorgani-  
zation to disperse with a surplusage  
of government servants, not only in  
the Bureau of Standards but of all  
other bureaus. These facts cannot be  
secured from heads whose chief con-  
cern is expenditure of funds. I  
must be guided by independent in-  
vestigators whose concern is how  
much is absolutely necessary rather  
than how much can be secured.

Bureaus Still Demanding.  
The real problem is seen in the  
bureau efforts now put forth to con-  
tinue the forces enlisted in the war  
effort. Before the war there were re-  
portedly fewer than 21,000 employees in Wash-  
ington. Today, two years after the  
war is actually over, we still have  
more than double that number on  
the payroll in Washington.

"It is the problem of the Sixty-  
seventh Congress. Get the facts  
from independent sources and then  
use the meat ax if necessary. Reso-  
lution is the only way to collect the data,  
eliminate them, and report require-  
ments to avoid waste and duplica-  
tion of efforts will be pressed at an

President-Elect Harding as a Fisherman and With  
the Evidence That He Landed at Least One TarponHEAD OF FARMERS' UNION  
ASSAILS 'ARTIFICIAL DEFLATION'

Barrett Says Farmers Are Called on  
for Sacrifices Not Demanded of  
Any Others.

By the Associated Press.  
KANSAS CITY, Mo., Nov. 17.—  
The Secretary of the Treasury and  
the Federal Reserve Board deal a  
body blow to the farmers of the  
country when they "persistently  
and in spite of the United Farmer  
protest repeat, parrot-like, the slogan  
of certain financial interests that  
price declines are inevitable,  
and unavoidable," Charles S. Bar-  
rett, president of the National Farm-  
ers' Union, told delegates to the  
annual convention of that organization  
here yesterday.

"The farmers are called upon to  
make sacrifices not demanded of  
any other industry," President Bar-  
rett said, "and they will decline to  
yield to the wishes of certain inter-  
ests trying to make them the special  
victims of what many regard as ar-  
tificial and unnecessary deflation."

Effective price legislation, the  
enforced truthful branding and la-  
beling of feeds, seeds, fertilizers,  
wearing apparel and other commodi-  
ties; the passage of the bill author-  
izing the operation of the Museum  
Shoals nitrate plant are among the  
subjects in which the union is vi-  
tally interested, President Barrett  
said.

The president urged the preserva-  
tion of the Federal farm loan sys-  
tem, against which, he said, an at-  
tack was being directed by farm  
mortgage brokers.

Directors of Architects'  
INSTITUTE TO VISIT HERE

They Will Be Guests of St. Louis  
Chapter Saturday at Luncheon  
and Reception.

Members of the board of directors  
of the American Institute of Archi-  
tects, and representatives from Mid-  
dle West chapters of the institute,  
are to be guests of the St. Louis  
chapter Saturday. The directors  
will meet from 10 a. m. to 1 p. m. in  
the Chamber of Commerce assembly  
room, J. L. Mauran of St. Louis being  
chairman of the meeting.

Speakers and topics will be: W.  
F. Gephart, vice president First Na-  
tional Bank of St. Louis, "Economic  
Situation Regarding Building and  
Labor Costs"; John Alpine, former  
vice president American Federation  
of Labor, "Attitude of Labor Toward  
Industry"; Robert D. Kohn of New  
York, "Impressions of the Housing  
Problem."

Luncheon will be served to the  
visitors at 2 p. m. at Washington  
University, and this will be followed  
by a two-hour drive through resi-  
dential and industrial districts. A  
reception will take place at the St.  
Louis Architectural Club at 5:30, and  
at 7 p. m. the guests will take  
dinner at the St. Louis Club, with  
Louis LaBrosse as chairman.

Francis G. Shenahan will make  
the chief address, on "Relations between  
the Engineering and Architectural  
Professions."

Postponed Sale by Road Degraded.

Moberly cemetery. He belonged to the  
18th Balloon Company and was  
drowned while boarding the trans-  
port at Bordeaux, April 13, 1919, is  
said for home.

THE group photograph shows the Senator with the gamey tarpon.  
4 feet and 7 inches in length, that he landed on his second day's  
fishing off Point Isabel, Tex., after a 30-minute fight. The glory of  
this achievement was somewhat dimmed a few minutes later when Mrs.  
Harding landed a six-footer. However, the Senator and several wit-  
nesses are telling how he hooked the largest tarpon ever seen at Wal-  
halla, only to be so unlucky as to lose it when the line snapped while  
he was playing it easily so that movie cameras might make a good record  
of his prowess as a fisherman.

VETERAN STEAMBOAT MASTER  
BURIED BY ODD FELLOWS

Funeral Services for Capt. Kellogg  
Held Today—Buried in Valhalla  
Cemetery.

The funeral of Capt. Edwin R.  
Kellogg, 76 years old, veteran pilot  
and steamboat master on the Mis-  
sissippi River, was held today, serv-  
ices being conducted by Odd Fellows  
Lodge No. 5, in undertaking rooms  
at 4440 Olive street, with burial in  
Valhalla Cemetery. Capt. Kellogg  
died from paralysis Sunday night at  
the Marine Hospital, where he had  
been a patient for eight months. He  
was in poor health for four years.

Capt. Kellogg became an appren-  
tice pilot when he was 18 years old  
and served on steamboats during the  
Civil War. About six years ago he  
was on a boat which sank rapidly in  
the southern stretch of the river and  
he escaped with difficulty. His last  
command was that of the towboat  
Josh Cook. He was at one time  
president of the organization of river  
pilots and masters. He lived with  
his wife and son, Rollie C. Kellogg  
at 503 Linden avenue, Clayton.

JAMES W. BUEL, AUTHOR,  
DIES IN CALIFORNIA

James W. Buel, an author and  
publisher, well known resident of St.  
Louis until 10 years ago, died at San  
Diego, Cal., at the age of 71. For  
many years he was a reporter of the  
Post-Dispatch early in the 80s.

"The Beautiful Story" translating  
the Bible into every day English, was  
one of Mr. Buel's earlier works and  
at the time it was published, en-  
joyed the largest circulation of any  
book, except fiction, of its day. A  
compilation of the authors and a his-  
tory of the opera were other of his  
well known works. He was also of  
ficial historian for the Columbian  
fair at Chicago and the Louisiana  
Centennial Exposition at St. Louis.

He leaves his wife, a son, Richard  
Buel, and two daughters, Mrs. Er-  
nest Thayer of Santa Barbara, Cal.,  
and Mrs. George E. Bradley of St.  
Louis.

HARDING INVITED  
TO VISIT MEXICO;  
MAY REPLY TODAY

Invitation Received From  
Mexican Foreign Office  
and Gen. Obregon, to At-  
tend Inauguration.

By the Associated Press.  
BROWNSVILLE, Tex., Nov. 17.—  
President-elect Harding's reply to  
the invitation to visit Mexico during  
his Southern trip probably will be  
determined upon during the next 24  
hours as he travels by special train  
from Brownsville to New Orleans,  
from where he will sail tomorrow  
on his trip to the Canal Zone.

Leaving this place at 10 o'clock  
this morning at the end of a nine-  
day vacation, Senator Harding will  
reach New Orleans at 10 o'clock to-  
morrow morning and during a five-  
hour stay there will deliver an ad-  
dress before the New Orleans Asso-  
ciation of Commerce. If his steam-  
ship course is to be changed to per-  
form a call at Vera Cruz, an announce-  
ment is expected before he reaches  
the Louisiana port. There were no  
indications before his departure,  
however, whether he would accept  
the invitation, which came to him  
yesterday from Mexican officials.

The invitation to visit Mexico was  
brought to Brownsville by Elias L.  
Torres, who said that in urging its  
acceptance he spoke both for the  
Mexican Foreign Office and for Gen.  
Alvaro Obregon, the Mexican Presi-  
dent-elect. In an hour's conference  
with the Senator, Torres made a spe-  
cial plea that the Senator be present  
at Obregon's inauguration in the  
Mexican capital.

Harding is represented by his  
friends as weighing carefully two  
considerations before making a de-  
cision.

Senator A. B. Fall of New Mexico,  
who was chairman of the Senate  
subcommittee that investigated Mex-  
ican affairs, came to Brownsville  
with Torres and was present at the  
conference between the Mexican en-  
voy and Harding.

MICHIGAN CONGRESSMAN ONLY 25

C. J. McLeod in House Until Next  
March.

By the Associated Press.  
DETROIT, Mich., Nov. 17.—The  
distinction of being one of the  
youngest members of the National  
House of Representatives is claimed  
by Clarence J. McLeod, Detroit  
attorney, who was elected from  
Detroit in the Thirteenth Michigan  
District at the recent election, to fill  
a vacancy.

McLeod became 25 years old July  
3, this year. In the primary elec-  
tion on Aug. 21, or less than two  
months after he became eligible to  
succeed the congressional "honore-  
ary," he defeated three other Republicans  
for the short term nomination to fill  
the vacancy created by the death of Re-  
presentative Charles E. Nichols of  
Detroit. McLeod will be re-elected from  
Congress on March 4, next, by Vin-  
cent M. Brennan, elected Congress-  
man from the same district for the  
long term.

WILSON CONGRATULATES PESS'

Sends Message to President of Brazil  
on Republic's Birthday.

By the Associated Press.  
WASHINGTON, Nov. 17.—Presi-  
dent Wilson has cabled President  
Pessoa of Brazil expressing "the  
heartiest felicitations of this Govern-  
ment and people, and my own cor-  
dial congratulations as well, on the  
celebration of the anniversary of the  
founding of your great republic."

"The Secretary of State will soon  
embark for Brazil on my behalf,"  
the message continued, "to return  
the welcome and gratefully remem-  
bered visit of your excellency to the  
United States of America last year,  
and will convey in person my best  
wishes and expression of my high  
regard."

ELKUS REACHES STOCKHOLM

By the Associated Press.  
STOCKHOLM, Nov. 17.—Abram  
L. Elkus of New York City, member  
of the commission which will review  
the dispute relative to the disposi-  
tion of the Aland Islands, which  
threatened for a time to result in  
hostilities between Sweden and Fin-  
land, arrived here from America  
yesterday morning.

Swedish newspapers express grati-  
tude over the arrival of Judge  
Elkus, which they consider as signi-  
ficant of America's interest in set-  
tlements of European disputes. The  
King is expected to receive the  
American representative today at a  
special audience.

Clemency Denied Wife Murderer.

ANTI-DIPHTHERIA  
SERUM OFFERED  
FOR CHILDREN

Director of Hygiene for  
Public Schools Urges Use  
of Free Service at Police  
Stations.

A letter to parents urging them to  
submit their children to a test to  
determine if they are susceptible to  
diphtheria, and, if so, to have them  
immunized with a new toxin-anti-  
toxin available for general use in St.  
Louis for the first time is being dis-  
tributed among public school chil-  
dren by Dr. James Stewart, director  
of hygiene of the schools.

The Health Department has  
agreed to station physicians in all  
the police stations of the city to ad-  
minister the antitoxin free of cost.  
The service will be "ad" toward the  
end of this week. The hours will be  
2 to 5 p. m.

The reason for Dr. Stewart's letter  
is the presence of a considerable  
number of cases of diphtheria  
among school children. There were  
578 cases in the schools during Oc-  
tober, compared with 524 for Oc-  
tober, 1919. There were 337 cases  
during the first half of this month.  
During one week of October there  
were 167 new cases among public  
school children. The disease is not  
confined in any one or few localities,  
but is spread generally over the city.

"Carrier Cases Mean Danger."  
The toxin-antitoxin offered, ac-  
cording to Dr. Stewart, will immu-  
nize for several years.

"We are particularly desirous that  
the children submit to the Schick  
test, a simple skin test to determine  
the susceptibility or immunity of the  
child," Dr. Stewart said. "In this  
way we will have better opportunity  
to locate carriers of the disease. A  
carrier case is one where the throat  
of the child, by a culture, is found  
to harbor diphtheria germs, yet his  
resistance is strong enough to pre-  
vent development of the disease in  
himself though he is capable of  
transmitting it to others. Thus a  
carrier is a constant menace, and  
difficult to recognize because out-  
wardly he may appear perfectly nor-  
mal."

The letter to parents is, in part, as  
follows: "The United States Public  
Health Service, the St. Louis De-  
partment of Health and the Division  
of Hygiene of the St. Louis public  
schools are agreed that the protec-  
tion of children against diphtheria  
by a certain antitoxin is proper and  
safe. Your family physician can be  
consulted and he will advise you  
you can have it done at the police  
stations without cost."

There is little reaction from inocu-  
lation, Dr. Stewart said.

Avalis Receipt of "Own Body."

By the Associated Press.  
LYNN, Mass., Nov. 17.—Although  
Lieut. John C. Gramsforth, a Yankee  
division veteran, has notified the  
War Department several times that  
he is not dead, he received a tele-  
gram at his home in Everett, an-  
nouncing that his body is now on its  
way home from France. The of-  
ficials also have held back money  
due to the Lieutenant, apparently  
unwilling to believe he is alive.

200 DAYS IN WORKHOUSE FOR  
DISTURBING HIS WIFE'S PEACE

Laborer Breaks Into Home With an  
Ax After Court Had Separated  
Him From Wife.

Domestic Lagrasso, 45 years old, of  
1127 North Eleventh street, a labor-  
er, was given 200 days in the work-  
house today by Police Judge Mix, in  
lieu of payment of two fines of \$300  
each for disturbing the peace of his  
wife. Saturday night, Lagrasso came  
home drunk and beat his wife, dis-  
appearing afterwards. Monday, he  
returned and beat her again, but  
was arrested. For this he was fined  
\$300 yesterday and put on parole,  
the fine being stayed.

He failed to keep an appointment  
with the parole officer, and, al-  
though Judge Mix had separated him  
from his wife, according to his cus-  
tom, was given 200 days in the work-  
house today by Police Judge Mix, in  
lieu of payment of two fines of \$300  
each for disturbing the peace of his  
wife. Saturday night, Lagrasso came  
home drunk and beat his wife, dis-  
appearing afterwards. Monday, he  
returned and beat her again, but  
was arrested. For this he was fined  
\$300 yesterday and put on parole,  
the fine being stayed.

## Our Thanks

The success of Conroy's has been founded on the principle of large sales volume and narrow profit margins.

This established business policy has caused Conroy's to forego many opportunities for excessive profits during the past three years.

It is widely known that certain instruments for which Conroy's hold exclusive local representation were sold in St. Louis at 30% to 40% less than elsewhere in the country.

The fact that Conroy's sales the first ten months of this year have increased 18% over the same period of 1919 shows the public appreciation of the sound merchandising methods of this institution.

For this substantial approval of our policies we thank you.

## FOURTH RED CROSS ROLL CALL OPENED FORMALLY TODAY

Twice as Many Workers Enlisted in 1920 Campaign as Were in Ranks Last Year.

### FLAGS ON TROLLEY POLES AND BUILDINGS

Band Concerts at Noon in Downtown District; Women to Work in Public Building Lobbies.

The Fourth Red Cross Roll Call was formally opened here today with twice as many workers as last year endeavoring to enlist all St. Louisans in the ranks of the organization. An extensive advertising campaign has been under way, culminating in the appearance this morning of thousands of American and Red Cross flags hung on trolley poles, wires and buildings in the downtown district bounded by Washington avenue and Pine street, Fourth and Twelfth streets.

At noon there were a number of band concerts in this district, calling attention to the roll call, the first being given in front of headquarters in the Kinloch building, Tenth and Locust streets.

It was pointed out by Frank V. Hammar, chairman of this year's roll call, whose wife is head of the St. Louis Chapter of the Red Cross, that the membership fees, which are \$1. and donations of more than this amount, ultimately go to the local chapter for use in its work here, unless the district should not require the full amount received here.

"Red Cross Sunday," Rev. Dr. Ivan Lee Holt, pastor of St. John's Methodist Episcopal Church, and chairman of the Protestant Ministers' group of the roll call, has asked the Protestant ministers of the city to set aside next Sunday as "Red Cross Sunday," and urge every one in their congregations to join.

Tomorrow at 2:30 p. m. the members of the women's division, of which Mrs. B. F. Bush is chairman, will meet in the Vandeventer auditorium to receive instructions for their work in the lobbies of public buildings, beginning Saturday and continuing throughout the roll call. The Executive Committee of this division includes Miss Grace Taussig, Mrs. George Geilhorn and Mrs. Joseph W. Bray.

The St. Louis Chapter of the D. A. R. will have charge of the enrollment in the lobby of the Equitable building, where the Red Cross offices are, and members of the chapter are urged to bring their own subscriptions and others they may obtain to this place.

Mrs. Hammar will address the Council of the National Congress of Mothers at 2 p. m. tomorrow.

"All You Need Is a Heart and a Dollar" is the slogan that all the speakers are repeating to every audience and which appears on many posters.

**BOND JUMPER BROUGHT BACK**  
Samuel Balsamo, 26 years old, who several months ago jumped from the window of a moving train near Marion, O., when being brought to St. Louis by Detective Behnken from New York, arrived here last night in custody of Detective Colard, who brought him from Clairton, Pa., where he was recaptured last week.

Balsamo was originally charged a year ago with the theft of a \$30 set of harness. He jumped a bond and disappeared and was arrested in New York. The bondsman paid the expenses of Detective Behnken to bring him back to St. Louis on the occasion of Balsamo's escape. He again paid the expenses of the trip when Colard went after him. Balsamo made no statement.

**SEALED PROPOSALS**  
PROPOSALS FOR HYDRAULIC TURBINE, U. S. Engineer Office, Florence, Ala. Sealed proposals will be received here until 12:30 p. m. Monday, Nov. 22, 1920, and delivered one (1) hydraulic turbine of 1000-horsepower capacity, with governor. Further information on application.

**SEALED PROPOSALS—Postoffice Department, Washington, D. C., Oct. 28, 1920.** Sealed proposals will be received at the office of the Purchasing Agent of this department until 2 p. m. Nov. 23, 1920, for furnishing mail pouches, sacks and cartons as they may be ordered for use of the postal service from time to time during the balance of the fiscal year ending June 30, 1921. Blank proposals with specifications and instructions to bidders will be furnished upon application to the Purchasing Agent, U. S. Bureau, Postmaster-General, 4070.

**NOTICE TO CONTRACTORS—Sealed bids** will be received at the office of the City Secretary of the City of Palestine, Texas, until 2 o'clock p. m. Monday, Nov. 22, 1920, for street paving with the following materials:  
Sheet asphalt.  
Asphaltic concrete.  
White composition.  
Wood blocks.  
Brick.  
Rock asphalt.  
Warranted bituminous.  
The amount of work to be done is approximately as follows:  
25,000 sq. yds. pavement.  
45,000 lin. ft. curb and gutter.  
25,000 cu. yds. excavation.  
The work will be done under the flat plan of the front foot assessment paying law.  
Each bid shall be accompanied by a check for an amount equal to five per cent of total bid. This check shall be certified by some national or state bank doing business in the State of Texas and shall be made payable to the Mayor of Palestine, Tex. The check of the successful bidder will be returned upon execution of his contract and the approval of his bond on behalf of the city, and the checks of the other bidders will be returned at the expiration of 45 days from date of opening proposals or sooner, if contract is executed prior to that time. All checks will, upon receipt thereof, be deposited in the treasury of the City of Palestine.  
Plans, specifications, list of streets proposed to be paved, and all necessary information may be had upon application at the office of the City Engineer and the deposit of \$25 to guarantee return of plans in good condition. Right is reserved to reject bids.  
Dated Nov. 5, 1920.  
A. L. BOWERS, Mayor, etc.

### Items of Interest

#### Every Mother—

—should have the "Children's Costume Quarterly." It contains so much useful information, and gives the newest ideas in everything the kiddies want and need. Dress, toys, playrooms, entertainments are some of its features. It is only 35c a copy, or, a year \$3.00  
The Book Shop—Sixth Floor.

#### A Bowl of Nuts—

adds much to home festivity through long Winter evenings. On the first floor tables I saw the most delightful wooden bowls, in brown mahogany finish. Cunning Silver Squirrels were perched atop one side, while holes were drilled just opposite for nut picks and crackers.  
Aisle Tables—First Floor.

#### Parchment Daisies—

are very new in the Gift Shop; they are to serve as light shields for the boudoir. Very unique and decorative in highly glazed effects. The colors are orchid, rose or blue. They are easily attached to the side of a light bracket.  
Art Shop—Fourth Floor.

#### "Lines"—

a Fashion-Favored Word  
THIS expressive word we encounter everywhere in Fashion's realm. All women know that it is not so much the costume's importance as it is the "lines" which create the general effect. Just a hint—if your figure isn't pleasing, select the Corset that is right for you. Our expert staff of corsetiers is at your service.

## GERMAN MONEY IS STOLEN

20-Mark Coins and Other Money Taken From Store Window. A window display of German and

American money and \$200 in jewelry was stolen by window smashing thieves at the store of Benjamin Melnick, 1604 Market street, shortly after 4 a. m. today. The thieves waited until an owl car passed the

place to drown the noise of the breaking glass. Taken from the window, Melnick told the police, was \$72.20 in gold, paper and silver and a 20-mark German coin. The damage to the window was \$290.

## 5 DEAD, ONE MISSING IN KENTUCKY MINE FIRE

Eleven Survivors Saved by Turning on Compressed Air Valves.

Special to the Post-Dispatch.

EARLINGTON, Ky., Nov. 17.—

Five miners are dead, smothered by smoke, and one is missing as the result of a fire which started yesterday afternoon in the Arnold coal mine south of here. Mine rescue crews erected barricades which enabled 11 survivors, carrying the dead with them, to make their way to the north chamber under an air shaft at midnight. The rescuers hope to erect other barricades to enable the men to make their way to any entry on the south side this morning.

The dead are Roy Carnes, married; Hugh Mack Perkins, married; Jack Bond, single (all white); Alex James and George Andres, the latter two negroes. The missing and the 11 survivors are negroes.

The 11 survivors were saved by the compressed air piped into the mine for use in the operations, according to three negroes who were able to climb the 95-foot ladder in the shaft to the surface this morning. When they felt themselves growing faint the men would turn on the compressed-air valves and gulp in the air from outside.

Six physicians and Red Cross nurses climbed down the shaft this morning and ministered to the survivors who were too weak to climb to safety. Blankets were taken down and cans of hot coffee, besides stimulants. The shaft is too small to permit the men being carried out on cots or stretchers, and the survivors must wait until the rescue crew erects other barricades.

The rescuers reached the imprisoned men and the dead by working from the shaft at the north end of the mine.

## ALCOHOL AND EXPOSURE KILLED TWO ACTRESSES IN CHICAGO

By the Associated Press.

CHICAGO, Nov. 17.—Confessions

from the two men held in connection with the deaths of Marie Ramsey and Lillian Thompson the two actresses found in Grant Park Sunday morning have cleared up nearly all the details, police say, and have established that the girls died from alcohol and exposure, and without violence.

Police still are searching for two other men who are said to have been with the girls early Saturday evening. According to the confessions, given out by the police, the two men being detained met the girls after the latter had obtained the liquor which played the chief part in causing their death.

These two men, their confessions declare, left the girls at their own request in Grant Park, and it is believed by the police that the girls wandered there until overcome by exposure.

Investigation by the police disclosed, it was said, that the girls had partaken of "demon extract" purchased near their home Saturday night, besides the other liquor which chemical examination disclosed in their stomachs. No traces of poison were found, the police said.

The two 19-year-old youths held in connection with the two women's deaths, are Marcus Brumberg and Harry Jorgenson.

Jorgenson told his part in the Saturday night "joy ride" to a friend of his employer in explaining the damaged condition of an automobile belonging in his employer's garage which he had borrowed for a Saturday night.

Police indicated today that they accepted the story of the two youths, who declared they had not given the young women any intoxicants.

## WORKERS STORM FRENCH PLANT

Police Repulse Effort to Seize Ble-riot Works.

By the Associated Press.

PARIS, Nov. 17.—Dismissed workmen of the Ble-riot works at-tempted to storm the plant yesterday with the purpose of occupying and operating them for the benefit of the employees. The workers were repulsed by the police.

A committee which was sent to discuss the situation with the Ble-riot officials was unable to come to terms, and gave the company notice that unless the works reopen on Thursday the men themselves would operate them.

A dispatch from Paris on Sunday said the Ble-riot works had closed down indefinitely, throwing 2000 persons out of work.

## PROVIDENT ELECTS TWENTY DIRECTORS

Annual Report Read at Sixtieth Anniversary of Charitable Association.

The St. Louis Provident Association observed its sixtieth anniversary by a meeting last night, in the Second Baptist Church. Visiting speakers were Dr. A. J. Todd of Chicago and Francis H. McLean of New York. Twenty of the 60 directors were re-elected, the terms of one-third expiring each year.

In the annual report of C. M. Hubbard, general manager, it was stated that the chief development of the Provident Association's work in the past decade has been in the field of family social work.

"While the unfortunate need alms," the report said, "they also need service that will remove the cause of destitution, and in addition do those things which the mere giving of alms alone can never accomplish. The giving of coal and groceries will not straighten the limbs of a child that has been crippled by infantile paralysis, but persuasion in overcoming the parents' fear of the hospital, arrangement for treatment at a hospital or by a specialist, will do it."

"Nearly half the families that were under the care of the Provident in the past year required no material relief in any form, yet each of them was struggling against problems that were undermining its happiness and well-being."

**Purpose of Work.**  
"The purpose of family social work is to lead families out of their poverty, so that alms will not be needed. The social worker no longer makes an investigation in the old sense of the word, for the purpose of giving relief. On the contrary, she makes a friendly, sympathetic inquiry into conditions, to ascertain what the problems are, and to obtain information that will help in their solution. If relief is needed, she orders it from the relief department."

"The test of her efficiency is the results secured in better health, greater faithfulness and regularity in employment, better economies in home management, better school attendance, better connections with church and Sunday school, better relations between husband and wife, where friction exists, better environment, and higher ideals in the families under her care. Her efficiency is measured by her ability to transform 'bad' homes into good homes for the rearing of our future citizens; by her ability to convert families that are community liabilities into community assets."

The report states that 2063 families were under the care of the social service department during the past year, of which 1202 were white families of American birth and 810 were negro families. In the remaining 351 families, of foreign birth, 31 nationalities were represented. The number of visits made by the association's representatives was more than 33,000, it is stated.

**One-Fourth Self-Supporting.**  
One-fourth of the families were self-supporting, and were helped in other ways than by material aid. Another fourth, which had not been self-supporting, was made completely so, it is stated.

Activities and developments mentioned in the report are the work of the Urban League for improvement of Conditions Among Negroes, which tries to train them in thrift and good habits, and to help them in obtaining better employment; the summer health camp, to which 210 women and children were sent the past summer; the women's auxiliary, which has made and collected garments; the school aid, to provide clothing and shoes to enable poor children to attend school, and co-operation with the Red Cross and other agencies.

For the future, the report declares, extension into the field of welfare and prevention is to be desired. "The great fund of information which the Provident is gathering," the report says, "should be analyzed and used in arousing public action to shut off more of the poverty and misery at its source. A beginning has been made in a study of wife desertion, its cost, its treatment and the laws and court procedure relating to it. This may point the way to the study of other subjects, such as feeble-mindedness, nervous disorders and housing."

## JAPANESE POPULATION IN CALIFORNIA, 70,196

Increase of 69.7 Per Cent in  
Ten Years—Gains in Other  
Western States.

By the Associated Press.  
WASHINGTON, Nov. 17.—The  
Japanese population of California is  
announced by the Census Bureau  
as 70,196, an increase of 28,846, or  
69.7 per cent, compared with 1910.  
The Japanese population of Wash-  
ington was announced as 17,114, an  
increase of 4185, or 32.4 per cent.  
The Japanese population of Ore-  
gon was given as 4022, an increase  
of 694, or 17.7 per cent.

The bureau's statement showed  
that the Japanese population of Cal-  
ifornia constituted 2 per cent of the  
total population of the state in 1920,  
as compared with 1.7 per cent in  
1910 and 7-10ths of 1 per cent in  
1900.

The number of Japanese women in  
the three Pacific Coast states and  
in Hawaii showed a heavy gain over  
the 1910 population, both in totals  
and in relation to the number of  
male Japanese.

In Hawaii the total population of  
all races is 255,912, of which 109,-  
269 are Japanese. The increase in  
Japanese since 1910 is 29,596, or 37.1  
per cent, compared with 18,564, or  
30.4 per cent, during the preceding  
decade.

The Census Bureau's figures dis-  
closed that on the Pacific Coast,  
where females constituted not more  
than 6 per cent of the Japanese pop-  
ulation in any state 20 years ago,  
women now make up 26.8 per cent  
of the Japanese total in California,  
34.7 per cent in Washington, and  
32.3 per cent in Oregon. In Hawaii  
the ratio of Japanese women to men  
has nearly doubled since 1900, and  
now is 42.7 per cent females.

The bureau's figures showed a  
large increase in the Japanese fe-  
male population in California—the  
figures for 1920 being 44,364 males  
and 25,138 females, as compared  
with 35,116 males and 6240 females  
in 1910, and 8598 males and 553 fe-  
males in 1900.

The Japanese in Washington con-  
stitute 1.3 per cent of the total pop-  
ulation of 1,365,621, as compared  
with 1.1 per cent in 1910 and 1.1 per  
cent in 1900. The Japanese popu-  
lation in 1910 was 12,929, and in 1900  
5617.

The Japanese population of Ore-  
gon constitutes 5-10ths of 1 per cent  
of the total population of the State  
in 1920, as against 5-10ths of 1 per  
cent in 1910 and 6-10ths of 1 per  
cent in 1900.

The increase since 1910 was at a  
lower rate than for the preceding  
decade, the increase from 1910 to  
1920 being 604, or 17.7 per cent, as  
compared with 917, or 35.7 per cent.

## FIRE DAMAGES BUSINESS BUILDING ON NORTH GRAND

Loss on Structure Estimated at  
\$10,000; Damage to Auto Acce-  
sory Stock Fixed at \$20,000.

A fire which was discovered about  
2:45 a. m. today in a four-story  
brick building at 1608 North Grand  
avenue, resulted in considerable  
damage to the building and contents  
before it was extinguished.

It was first seen by a janitor in  
an adjoining building. Flames were  
then coming through the window  
on the third floor, which is occupied  
by the Unique Hood and Cap Co.,  
manufacturers of automobile acces-  
sories. David Rudman, secretary of  
this concern, later estimated the  
damage to stock at \$20,000.

The fire spread to the second floor,  
damaging the office effects of the  
Keystone Coffee Co., the Wearver  
Brush Co., and the chemical labo-  
ratories of Charles Dot & Co. and the  
Prim Laboratories. On the fourth  
floor, the printing room of the Roach  
photograph studio, which has quar-  
ters on the first floor, suffered some  
damage.

The fire, however, did not reach  
the first floor, although some dam-  
age was caused by water. Insurance  
men estimated the damage to the  
building at \$10,000. None of the  
floors collapsed. Firemen chopped  
several holes in the roof to insert  
their hose. The cause was not as-  
ertained.

BETTER THAN  
WHISKEY FOR  
COLDS AND FLU

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter if Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the "minute cold and cough reliever," authoritatively guaranteed by the laboratories, tested, approved and most enthusiastically endorsed by the highest authorities, and procured by the common people as a times as quick and effective as whiskey, rock and rye, or any other cold and cough remedy they have tried.

All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal and tell him to serve you two teaspoonfuls with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Don't be bashful, for the druggists invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, the easiest to take and the most agreeable cold and cough remedy for infants and children.

RAYMOND FOSDICK  
DEPLORES POLICE  
CONDITIONS IN U. S.

Declares After a Survey That American Methods Are Sordid and Unworthy.

POLITICAL INFLUENCE  
MUCH TO BLAME

Finds Policing Regarded as Job, Not a Profession and Below European Standards in Efficiency.

Special to the Post-Dispatch.  
NEW YORK, Nov. 17.—The Bureau of Social Hygiene has made public a summary of the conclusions reached by Raymond B. Fosdick, former undersecretary of the League of Nations, after a survey of American police conditions as compared with European methods.

Fosdick concludes that "our achievement in policing is sordid and unworthy" and "we must confess failure in the elemental responsibility laid on all peoples who call themselves civilized of preserving order in their communities."

Among the factors responsible for this situation he finds political influence the most important. He particularly asserts that progress is retarded because "the constructive efforts of a progressive administration are likely to be wiped out by a reactionary successor." "In this mean play of politics," he says, "our gains are often illusory."

Contrasting the modern scientific and business methods used by European police with our methods, Fosdick says: "In America the student of police travels from one political squabble to another, too often from one scandal to another. He finds a shifting leadership of mediocre caliber, varied now and then by flashes of real ability which are snuffed out when the political wheel turns."

Policing Just a Job.  
"There is little conception of policing as a profession or a science to be matured and developed. It is a 'job,' held perhaps by the grace of some mysterious political influence and conducted in an atmosphere sordid and unhealthy."

He says these conditions have resulted in an attitude of cynicism and suspicion and refers to frequent public attacks on the police. "In the interim between these spasms of publicity," he says, "the average police force sinks in its rut while crime and violence flourish."

Saying the contrast between the situation on the two sides of the Atlantic "is frankly disillusioning," he goes on to compare American police conditions with those of 10, 20 and 40 years ago. Here he finds encouragement and improvement, but is discouraged because every step forward has been followed by a step backward, resulting in a slow and irregular advance.

At the time of the draft riots in 1863, he says, New York's police force was an "undisciplined, half-uniformed mob, armed with clubs. Between that day and this a revolution has been wrought in our police administration."

"As late as the eighties our police everywhere were regarded by the citizens with a resignation bordering on complacency, as the private armies of political parties in power."

The Police and Politics.  
"Today the open and avowed connection of the police with politics arouses widespread, though often futile protest. It was in 1895 that the Lexow Commission in New York unearthed scandals in the police department of a kind and to a degree that would be almost inconceivable today. Such flagrant conditions, in open defiance of public right and decency, may exist here and there even now, but unlike 1895, they represent the exception and not the rule."

"But the advance has been discouragingly irregular—a step forward, a slip backward, with a net achievement slight and inadequate. Improvement is not permanent; we do not hold our gains. The constructive efforts of a progressive administration are likely to be wiped out by a reactionary successor and carefully laid plans whose installation and development bear promise of good results are abandoned overnight. Every police department is a graveyard of projects and improvements which had they been developed to maturity would have reconstituted the police work of the city."

"Our Achievements Sordid."  
"They have died because the particular administration sponsoring them has met the fate of all municipal administrations, and the succeeding regime, to justify its existence, has had to discredit the work and aims of its predecessor. In this mean play of politics, this recurring advance and reaction, our gains are often illusory."

"We have indeed little to be proud of. It cannot be denied that our achievement in respect to policing is sordid and unworthy. Contrasted with other countries in this regard we stand ashamed. With all allowances for the peculiar conditions which make our task so difficult, we have made a poor job of it. Our progress has fallen far behind our needs."

"Successful in the organization of business and commerce, pre-eminent in many lines of activity, we must confess failure in the elemental responsibility laid on all peoples who call themselves civilized of preserving order in their communities."

## MONEY PANIC IN PARAGUAY TOWN

ASUNCION, Paraguay, Nov. 17.—A financial panic has prevailed here during the last few days, the result of a run on the Banco Mercantil, one of the most important establishments in Paraguay, which closed its doors and obtained a moratorium of two months. The suspension follows

that of the Bank of Spain and Paraguay recently.

A heavy run also was begun on the Banco de la Republica, from which the withdrawals thus far have been 11,000,000 pesos paper. The directors of this bank, however, declare they will be able to meet all demands and will not ask for a moratorium.

## THANKSGIVING DINNER FOR 5 TO COST \$5.71

1920 Menu, Arranged for Family  
Slightly Higher in Price Than  
Last Year.

Thanksgiving dinner this year will  
cost practically the same that a sim-  
ilar dinner cost last year, Investiga-  
tion made by the Post-Dispatch yester-  
day disclosed. Dinner for the av-  
erage family of five persons dining  
with the old-fashioned Thanksgiving  
menu will cost about \$5.71, as com-  
pared with the approximate cost of  
\$5.60 figured a year ago.

In other words, the dinner this  
year will cost over twice what it  
would have cost in 1912. In that  
year five persons could talk their  
way from the first bit of white meat  
to the last bite of pumpkin pie at a  
cost of \$2.77.

Turkey 50 Cents a Pound.  
Turkey is selling now for 50 cents  
a pound, dressed. Some markets  
with fancier marble tops on their  
counters are selling dressed turkey  
for as much as 55 cents. Last year,  
turkey was 45 cents a pound, and in  
1912 it was 22 cents.

This advance of a trifle over 10  
cents in the price of turkey since last  
year is practically offset by de-  
creases for other articles of the din-  
ner, although there are several min-  
or increases. If the weather becomes  
warmer next week market men say  
that turkey will probably advance  
still more, because then it will be  
necessary to ship them alive to the  
markets.

Commission men paid shippers 40  
cents a pound for turkey yesterday,  
just 5 cents more than they paid a  
year ago. The old explanation of  
"supply and demand" is given for  
the increase.

There is small difference between  
the chicken market of this year and  
last. Chicken, dressed, was quoted  
yesterday at 35 to 37 cents a pound.

Pumpkin for 30 Cents.  
Pumpkin prices are more favorable,  
it being possible to buy pumpkins at  
a rate to make two pies for 15 cents  
for the cost of the pumpkin ingredi-  
ent, but the cost of eggs, spices and  
milk is not figured, since recipes  
vary. Pumpkins are quoted at 2  
cents a pound, or a medium-sized  
pumpkin for 30 cents.

The other items of the family  
Thanksgiving dinner for which the  
Post-Dispatch has furnished prices  
for years are sweet and Irish pota-  
toes, celery, cranberries, spinach,  
peas, lettuce and the miscellaneous  
"trimmings." The prices given here  
were obtained at Union Market and  
other downtown stores, and on some  
items West End stores may be found  
to charge somewhat higher prices.

## MERCANTILE TRUST COMPANY CELEBRATES 21ST ANNIVERSARY

President Wade Presides Over Ban-  
quet in Safe Deposit  
Department.

The twenty-first anniversary of  
the Mercantile Trust Co., Eighth and  
Locust streets, was celebrated yester-  
day with the formal opening of  
the new addition to the building.  
About 18,000 persons visited the in-  
stitution during the day. The inter-  
ior was decorated, and many floral  
designs sent by well-wishers were on  
display.

An evening feature of the celebra-  
tion was a banquet and dance in the  
safe deposit department of the bank  
presided over by Festus J. Wade, the  
president. During the ceremonies  
he was presented with a large birth-  
day cake bearing the inscription,  
"21 Is 21." It was explained that  
the Mercantile's clearing house num-  
ber is 21.

Wade's first act was to cut a mas-  
sive slice of the cake and present it  
to Dave Smith, a negro porter who  
has been in the bank's employ since  
it was established, and who worked  
for Wade even before that. Wade  
made a brief talk, thanking his sub-  
ordinates for their work in building  
up the bank.

New Frisco Officials.

Three appointments of superin-  
tendents, effective tomorrow, have  
been announced by the Frisco Rail-  
road. W. H. Bevans, who has been  
connected with the general offices  
here, is made superintendent of the  
Western Division, with headquarters  
in Elmd. Ok. J. F. Liston, who held  
the latter position, becomes superin-  
tendent of the Southern Division,  
Memphis, Tenn., succeeding R. O.  
Wood, who resigned. H. L. Wor-  
man is to be superintendent of moti-  
vative power at Springfield, Mo., tak-  
ing the place of the late C. C. Hig-  
gins.

## MISS STELLA GRONE WEDS E. C. SANDERS

Miss Helen Banister to Become  
Bride of R. H. McRoberts  
at Ceremony Tonight.

THE wedding today of Miss Stella Grone and Edwin Christopher Sanders and Miss Helen Banister and Robert Harvey McRoberts are among the important nuptial events of the season. The marriage of Miss Grone, daughter of Mr. Herman Grone of 3723 West Pine boulevard, to Mr. Sanders, was solemnized at 11 o'clock this morning at the College Church in the presence of a large gathering. The Rev. Father Phillips performed the ceremony, which was followed by a reception at the home of the bride's mother. The bride's sister-in-law, Mrs. Henry Grone, was matron of honor. She was gowned in chiffon velvet of jade with a plumed hat of maline of the same shade. The maid of honor, Miss Florence Warner, wore American Beauty velvet with silver lace, and silver hat with plumes of the American Beauty shade. The brides-

## DOUBLE DESSERT

A waitress, carrying a piece of pie and a dish of ice cream, tripped.

The jar caused the ice cream to jump up and land on top of the pie.

Whereupon the young lady served the delicious, though accidental, combination—and made a hit.

Thus "The Sun" explains the origin of pie a la mode, a favorite double dessert at CHILDS.

Apple pie, topped with vanilla ice cream—the end of a perfect meal.

## PETITION BEING CIRCULATED FOR PAROLE OF RAY CUMMINS

Former Policeman Convicted on Ex-Convict's Testimony He Gave Protection in 175 Robberies.

A petition is being circulated in St. Louis for the parole of Ray Cummins, former policeman and secretary of the Police Relief Association, who has served about 18 months of a 10-year sentence in the Jefferson City penitentiary for burglary and larceny.

Cummins was convicted Jan. 8, 1918, after George Frank, an ex-convict, had testified that he had robbed about 175 homes in St. Louis with the advice and protection of Cummins, who, he said, shared in the spoils. A woman associate of Frank also testified against Cummins.

The verdict of the lower court was sustained July 6, 1919, and Cummins began serving his prison sentence the following day.

## DENIAL HAITI ASKED FOR AID

Under Secretary Declares Great Britain Was Not Approached.

By the Associated Press.  
LONDON, Nov. 17.—A report that the Haitian Government had requested Great Britain to intervene with regard to the alleged killing of Haitians by American marines was raised in the House of Commons yesterday and brought a reply from Cecil B. Harcourt, Under Secretary for Foreign Affairs, that no request for intervention had been received by Great Britain from or on behalf of Haiti.

Harcourt said he was making inquiries regarding the statement of an American journalist to the effect that Haiti had protested to Great Britain and that he had requested this journalist to end such practices.

## BISHOP JOHNSON A SPEAKER

Tells Church Club of Work at Lambeth Conference.  
Coadjutor Bishop Frederick Foote Johnson of the Episcopal diocese of Missouri, addressing the Church Club at a meeting at the American Hotel Annex last night, told of the work of the Lambeth Conference of Anglican Bishops which was held at Lambeth, England, last summer. An important phase of the conference, which was not designed for legislative purposes, was the discussion of a closer reunion of the various denominations.

The general trend of thought among the 252 Bishops present was for a closer relationship of the League of Nations received favorable consideration. Bishop Johnson pointed out a peculiarity of the Church of England, saying that certain of its high officers are appointed by the Prime Minister and that the present Prime Minister is a Baptist.

DINNER PARTIES IN THE HOME  
BECOME MORE POPULAR DUE TO WAITERS' STRIKE.  
An increasing number of afternoon and dinner parties are being held in the homes because of the inadequate hotel and club dining room service this fall.  
The hostess' first thought, then, is of the appointments of her home.  
The Prufrock-Litton Furniture Company, at Fourth and St. Charles streets, serve customers daily who wish to freshen the Dining Room with a new suite of furniture or to add to the Living Room's comforts with overstuffed or old pieces.  
Many beautiful suites of furniture are being sold at the Prufrock-Litton Store, while the special \$100 reduction on each suite is in effect.

## What We Mean by "Brass Tacks" on Player-Piano Prices

SINCE our first announcement of "Brass Tacks" prices on Player-Pianos many have asked us just what we mean. "Have you got the Lowest-Priced Player-Piano in the world? Is \$595 the lowest price anybody names today?" Bless you, No! No! NO! We wouldn't dare to offer the very lowest-priced stuff. We have a reputation to protect. But we do offer the best low-priced Player!

"Brass Tacks" means getting real value for what you pay—and being sure of it. It means "getting wise" to what makes a satisfying Player-Piano—and taking nothing else. You'll see what we mean by "Brass Tacks" when you come in and play

## The Lowest-Priced Gulbransen

We have searched the piano factories of America to determine which manufacturer is making a high grade instrument and offering at a close price. There is only one instrument that fully meets our ideas of "Brass Tacks" value today. It is this Gulbransen. In the first place, it is mostly built the same as the highest priced Gulbransen—the "millionaires" model at \$750. Built right in the same factory, by the same skilled workers, very largely of the same parts. This is true of no other low-priced Player-Piano.

This Gulbransen is a beautiful instrument—high class in appearance and sweet in tone. It is one we don't have to apologize for—one you can be proud of all your life. When you take a look at it and play it the first question that will pop into your head is, how is such an instrument possible at \$595?

THIS WEEK we are showing a special selection of specially handsome cases of the Lowest-Priced Gulbransen—genuine Mahogany, Burl Walnut, three kinds of Oak, satin and mirror-polish finishes—chosen for this "Brass Tacks" Sale.

TODAY AND TOMORROW we are demonstrating the famous Martin method instruction rolls, prepared for the Gulbransen Player by John Martin, the concert pianist. These rolls show you how your playing of the Gulbransen can be made to sound like expert hand-playing—and it's easy! Come and hear.

### WOMEN VOTERS CONFER WITH HYDE ON LEGISLATIVE MATTERS

Changes in Election Laws Among Matters Discussed With the Governor-Elect.

Officers of the League of Women Voters and other women's organizations conferred today at the State National Bank with Governor-elect Hyde on legislative matters of interest to women voters. Mrs. E. M. Grossman, chairman of the Legislative Program Committee of the league, was in charge of the conference.

Matters under discussion were changes in election, registration and primary laws, the children's code, factory inspection on a salary basis, minimum wage commission with women represented, removal of the word "male" from the Constitution, additional appropriations for the State Board of Health, and a plan for securing more satisfactory conditions for the State as to its milk supply.

Some of the measures were discussed specifically, the women presenting complete plans, while others were general. According to Mrs. Grossman the conference was satisfactory to the women. Another will be arranged for following the return of the Governor-elect from his vacation.

### GARDNER CRITICIZES OFFICERS FROM WHOM CHESTER ESCAPED

Governor Wants to Know Why Man Was Not in Irons; Offers Maximum Reward.

SPECIAL TO THE POST-DISPATCH.

JEFFERSON CITY, Mo., Nov. 17.—Governor Gardner today sent the following telegram to John E. Ransom, Police Commissioner at Kansas City:

"I have offered maximum State reward for the apprehension and conviction of the murderer of Miss Barton. Make a full investigation of the escape at once. I cannot understand why the public and private officers who were guarding Chester could not prevent his escape. Why was Chester not in irons?"

Association at Kansas City Offers \$5000 for Chester's Capture.

KANSAS CITY, Mo., Nov. 17.—The Law Enforcement Association, an organization of citizens, has offered a reward of \$5000 for the capture of Dennis Chester, who escaped from a train late Monday near Broken Bow, Neb., while being brought here from Great Falls, Mont., to answer a charge of murder in connection with the killing of Miss Florence Barton the night of Oct. 2, by highwaymen.

### "HEALTH AND SCHOOL WEEK" TO BE OBSERVED FROM DEC. 5 TO 11

First Day Will Mark Beginning of Sale of Tuberculosis Christmas Seals.

Gov. Gardner yesterday issued a proclamation for the observance of Health and School week, Dec. 5-11, in the State for the purpose of emphasizing the necessity of improvement in general health conditions and for the promotion of education. The movement was inaugurated by the Missouri Tuberculosis Association, acting in conjunction with the school authorities of the State, and will mark the beginning of the sale of tuberculosis Christmas seals.

Health sermons will be preached in all the pulpits of the State on the opening day of the drive and there will be special exercises in the schools, including an original playlet, health talks and appropriate songs.

A poster contest for cash prizes to be awarded by a committee composed of E. H. Wuer, J. director of St. Louis School of Fine Arts; E. G. Payne, head of Harris Teachers College, and A. W. Kinsack, supervisor of art in the St. Louis public schools, will also be a feature.

### INQUEST INTO KILLING OF DETECTIVE TO BE REOPENED

Prisoners Charged With Shooting Perry Frost Ordered Held Without Bond.

It was decided today to hold without bond Edward Pohlman, Norman Taylor and Gay Bartholomew, charged in warrants with the shooting and killing of Detective Perry Frost of East St. Louis at Edward Kearns' saloon in East St. Louis early last Sunday.

Justice Kane yesterday fixed the bonds of each at \$50,000 on the murder charge and \$10,000 each on charges of assault to kill and feloniously entering the saloon with deadly weapons. He canceled the fixing of the murder bond today on advice of the State's Attorney, who said it was not customary to accept bonds for persons charged with first degree murder.

The inquest over Frost will be reopened tomorrow. The original open verdict was returned before arrests had been made, and it is expected there will be a new verdict naming the men under arrest as responsible for the crime.

### TAKES POISON BY MISTAKE; DIES

Patrolman's Daughter Mistakes Nicotine for Medicine.

Mildred Volk, 29 years old, 1049 Blenden avenue, daughter of Patrolman Edward Volk of the Tenth District, died this morning as a result of taking nicotine by mistake. Her father stated this morning she had been suffering from nervous trouble for some time and had been taking medicine regularly. After going to the kitchen at 7:30 o'clock this morning, he said, she ran into his room crying, "Dad, I've taken the wrong medicine," and collapsed. Volk went for medical aid, but she died before it was secured.

The nicotine was kept in the house for killing bugs on plants and trees.

### DISPUTE OVER LETTING CITY COAL CONTRACT UP TO KINSEY

President of Board of Public Service as Member of Standardization Body, Has Deciding Vote.

The difference that has arisen between Comptroller Nolte and Supply Commissioner Thomas over letting the contract for the city's coal for the next year, was virtually put up to President Kinsey of the Board of Public Service today, by an opinion given out by Assistant City Counselor

### Sure Relief

6 BELL-ANS Hot water Sure Relief FOR INDIGESTION

Hamilton, who stated that the matter should be settled by the Board of Standardization. As Nolte, Thomas and Kinsey are the members of this board, it appears that Kinsey will cast the deciding vote.

Thomas has recommended that the bid of the West Virginia Coal and Mining Co. be accepted. Nolte says that the bid of the Bohemer Coal Co. is \$28,757 lower, and should be accepted. Thomas points out that the West Virginia has much larger facilities for mining and delivering the coal, thereby making delivery more likely.

The Bohemer Co. also asked the city to sign a contract releasing the company from obligation in case of strikes or other emergencies, and Thomas objected to this. Hamilton, in his opinion, said such a contract would have no effect, and that the company could be held to the conditions of the bid. He said the Board of Standardization should not reject the low bid unless the bidder was known to be irresponsible.

### TALK ON ELECTRIC APPLIANCES

Guido Pantaleoni spoke yesterday at the weekly luncheon of the St. Louis Electrical Board of Trade at Hotel Statler on the "Lack of Standardization in the Beginning of the Industry."

Pantaleoni enumerated many of the troubles which beset the manufacturer of electrical apparatus in these days, most of them arising from the lack of definite standards according to which to build. He said the voltmeter was practically unknown at that time and that one of the practices followed was guessing at the candlepower of electric

lamps according as they were bright or dim. The work was so inaccurate, he declared, that great numbers of lamps had scrapped later and large money were lost by the lamp manufacturers.

**GERMAN FOREIGN MINISTER**  
**OBJECTS TO BIG ALLIED ARMY**  
Says Force of Occupation Is Being  
Maintained at Offensive  
Efficiency.  
By the Associated Press.  
BERLIN, Nov. 17.—Allied armies  
of occupation in Germany are being  
maintained at a strength which is  
unnecessary, said Foreign Minister  
Simons in a speech at Cologne yester-  
day. He contended the Allied in-  
terests in thus keeping the forces in  
a high state of efficiency was not de-  
fensive, but offensive.  
The foreign minister asked the reason  
why the Rhine bridgeheads have  
been extended, why military bakeries  
capable of turning out 400,000 rations  
daily had been established and why  
new strategic Rhine bridges had  
been prepared and why Belgian  
troops, equipped almost ready for the  
campaign, have been stationed in tactical  
positions behind the armies of oc-  
cupation. He declared that these  
features of the situation gave an im-  
pression that territory along the  
Rhine was being used, not for pur-  
poses of security, but as "jumping  
off ground" for further encroach-  
ments upon Germany. A warm pro-  
test against Germany being added  
with the expenses of these armies  
was voiced by the foreign minister.

**MILAN JURY RETURNS SECRET**  
**VERDICT IN MURDER MYSTERY**  
Water Pumped From Well to Flus  
Revolver Used in McClas-  
key Case.  
Special to the Post-Dispatch.  
MILAN, Mo., Nov. 17.—This coun-  
ty seat town of Northern Missouri  
fell into the hands of the whisperers  
yesterday, when it was learned that a  
secret verdict, not to be announced  
until today, had been returned by the  
coroner's jury investigating the mur-  
der of Albert I. McClaskey, a black-  
smith shot to death in his home here  
early Monday morning.  
When it became known that Mc-  
Claskey in September had taken out  
\$12,000 in life insurance, which, to-  
gether with other policies he had,  
made a total of more than \$20,000,  
the whispering grew louder.  
At the McClaskey home, there was  
a different scene. Mrs. Daisy S. Mc-  
Claskey, the wife, calmly told of the  
murder. The two sons, Fred McClas-  
key and Clagart McClaskey, looked  
on, while workmen, acting under or-  
ders of Dr. William Parsons, Coroner,  
pumped the water from the open  
well in search of the revolver used  
by the murderer.  
Following the return of a verdict,  
Dr. Parsons held a long conference  
with J. P. Painter, Sullivan County  
Prosecuting Attorney. Painter said  
he was issuing warrants on the  
strength of the jury's verdict and  
that two persons would be charged  
with first-degree murder.

**THREE STRIKING WAITRESSES**  
**FREED OF PEACE DISTURBANCE**  
Were Alleged to Have Attacked An-  
other Waitress at Broadway and  
Olive on Oct. 23.  
Misses Lulu Bittner, 4516 Enright  
avenue; Ethel Ruhr, 1422 North  
Market street; and Marie Tying, 1298  
Ann avenue, pickets representing  
the striking waitresses, and Joseph  
Kroupa, 1882 South Twelfth street,  
a switchman, were discharged in Po-  
lice Court today of disturbing the  
peace of Miss Homer Boulton, 4141  
Delmar boulevard, a waitress at the  
Acme Restaurant, 205 North Broad-  
way, and Claude Davis, a bodyguard,  
who gave his address as the Arco  
Cafeteria, 409 North Broadway.  
Miss Boulton testified that the pick-  
ets attacked her at Broadway and  
Olive street the night of Oct. 23, and  
that when Davis, who was escort-  
ing her from work, went to her as-  
sistance, Kroupa knocked him down.  
The pickets said that they ap-  
proached Miss Boulton with the in-  
tention of asking her about a finan-  
cial matter and that Davis urged her  
to strike Miss Tying. Davis, they  
said, held Miss Tying while Miss  
Boulton slapped her and that Kroupa  
in trying to separate them knocked  
Davis down.

**"THE CRANK" ON TRIAL FOR**  
**KILLING COUGHLIN BABY**  
Pasquale Confessed Child Was  
Smothered Under Coat and  
Thrown Into River.  
By the Associated Press.  
NORRISTOWN, Pa., Nov. 17.—  
The trial of August Pasquale, self-  
confessed kidnaper and slayer of 13-  
months-old Flakely Coughlin, opened  
here today in the Montgomery Coun-  
ty Court. Charges of extortion and  
burglary are also pending against  
him. J. A. Anderson, former Dis-  
trict Attorney, was appointed by the  
court to defend Pasquale.  
In his written confession, as given  
out by the State police, Pasquale  
known as "The Crank," said that  
Coughlin child was smothered under  
his coat and that he threw the body  
in the Schuylkill River. Efforts to  
find the body have been unsuccessful.  
Pasquale also is alleged to have  
confessed that he obtained \$12,000  
from George H. Coughlin, the boy's  
father, and that he was planning to  
get further "ransom" when he was  
captured.

## REVENUE AGENTS RAID SALOON

Whisky and Beer Said to Have Been Found.

Five half-barrels filled and a half barrel on tap containing beer, of questionable alcoholic content, and a half-pint of whisky were confiscated by revenue agents and police in the saloon of John Anderson, 1333 North Eighth street, with the arrest of the bartender, Fred Malena, 33, 1408 North Ninth street, last night.

The whisky was found in the pocket of a coat hanging behind the bar. Malena was in his shirt sleeves. The half-barrel on tap was at the bar. The others were in the basement. Their contents will be analyzed today.

## CIRCUIT ATTORNEY LACKS FUNDS TO GET PRISONER

Man Arrested in Chicago, Sent Here for Burglary, Goes Free as Result.

John C. Evans, also known as Charles F. McGuire, 32 years old, held in Chicago for the police here on charges of grand larceny, receiving stolen property and bond jumping, will not be brought to St. Louis for trial because Circuit Attorney McDaniel's fund for the transportation of fugitives has been exhausted. This is the second time within a week that the Circuit Attorney has been financially unable to assist the police in bringing back St. Louis defendants arrested in other cities.

On Nov. 9, Joseph Merminich was arrested at Farrell, Pa., and identified by photograph as being wanted here for the murder of Wesley Koons in 1911 at the Helmshoefer Forge & Rolling Mills, De Kalb and Barton streets, where both had been employed. Gov. Gardner furnished funds for the transportation of Merminich.

Evans was arrested here July 9, 1918, with David Greeley of 4001 Lucky street, when an automobile stolen three days before was found in a garage which the two men had rented at 3871 Washington boulevard. Evans was released on a bond signed by Sam Weisman, a tailor at 1324 Olive street.

When the case was called for trial in the Circuit Court, Aug. 6, 1919, Evans failed to appear and his bond was declared forfeited. Weisman paid the amount of the bond into court. Weisman has since died.

Evans was arrested in Chicago, a

October, 1919, on a charge of con-

cealing two convicted murderers who

had escaped from the Cook County

jail. Yesterday the Chicago police

informed the police here that Evans

was being held for the St. Louis au-

thorities. After consulting with Mc-

Daniel, Chief O'Brien wired the Chi-

cago police to release the prisoner.

## ITALY FACING BANKRUPTCY WITH RESOURCES STRAINED TO FEED THE POPULATION

Industries Near Ruin Because Fuel and Raw Materials Are So Costly—Emigration to U. S. Counted Upon to Aid Situation.

By LINCOLN EYRE.

Correspondence of the Post-Dispatch and New York World.

ROME, Oct. 25.—Of all stiff, great

belongings Italy is the only power

whose population, as a result of the

war, has been substantially increased

by people of its own race. The num-

ber of Italians owing allegiance to

the House of Savoy was augmented

not only by the acquisition of ir-

reducible provinces, but by the return

home of many hundreds of thou-

sands of reservists and other nation-

als living abroad whom patriotism

led back to their embattled father-

land in the hour of danger.

Thereby the Italian nation has ac-

quired that surplus man power

which at the present time is at once

its greatest strength and its greatest

weakness. Strength, because through

it there is provided an abundance

of labor and a resumption of that

flood of emigrants who enrich their

country by two out of every three

collars earned in foreign lands.

Weakness, because this war of

economic distress the national re-

sources are strained to the breaking

point to find work and bread for so

numerous a population.

Obviously, if the wolf—whose

name today is Bolshevism—is to be

kept outside the door, the people

must be fed. In Italy food is de-

pendent basically upon two things—

importation of wheat and main-

tenance of industrial productivity. The

former is the business of the Govern-

ment, the latter chiefly that of

individual capitalists or capitalist

groups. Both, however, are grievously

hampered by the depression in

value of the lire. Indeed, it is

no exaggeration to state that the

Government faces ultimate bank-

ruptcy through the terrific burden

imposed upon it by the difference in

the price it must pay for wheat in

foreign markets and the price it

obtains for the same wheat from

ultimate consumers.

In the same way Italian manu-

facturers see ruin confronting them

because buying coal and raw materials

in America or England, with the

less than one-fourth its normal value

in dollars, raises production costs

to a point where competition with

foreign producers is out of the

question. Added to which there is

of course, the difficulty of fixing a

price for goods when rates of ex-

change fluctuate 20 and 30 per cent

in a single day.

During more than a month spent

in the principal Italian cities I

talked with fully a score of big Ital-

ian business men. To each I put the

following two questions:

"What's the matter with Italy?"

"What's the cure?"

None would admit that there was

any vital derangement of the body

politic, either politically, economi-

cally or socially. All conceded, how-

ever, that the outlook was very

gloomy for any immediate restora-

tion of normal conditions. The prin-

cipal complaint they voiced was that

foreign capital, whose assistance I

badly needed, was blindly refusing to

see the optimistic features of the

Italian situation, and on the strength

of sensational inaccuracies in the

foreign press has stubbornly re-

jected the most promising Italian

investments.

Holding Aloof From Italy.

There is no doubt that American

financial interests, at least, are hold-

ing aloof from Italy. In Genoa a

fortnight ago I learned that ever-

American concern in that port had

canceled all pending shipments to

Italy. This cancellation was put

through with special rigidity by

the big oil companies, notably

Standard Oil, which went still fur-

ther and began to dump the con-

siderable reserves in its Genoa tanks

on the market at a rate that result-

ed in purely artificial reduction in

retail prices. One of the most im-

portant oil men gave me the follow-

ing explanation of the American

dealers' attitude:

"The seizure of factories by the

Italian workers naturally made our

people at home wonder whether

there would be any seizures, and

perhaps a regular Bolshevik re-

volution. It's logical to suppose that

if the workers can get away with

this grabbing of industrial property

they might also help themselves to

our oil shipments, particularly as the

port of Genoa is entirely controlled

by the Seamen's Union. Why should

we run the risk of such a loss when

there are plenty of other markets

open to us?"

At Milan I was told of a great

American electrical corporation that

had abandoned a half-completed ar-

rangement to purchase hydroelectric

concessions to the extent of \$40,-

000,000 in the vast Trentino and

Adige river valleys. At Rome four big

American firms, long established in

Italy served notice on the Govern-

ment through the American embassy

that, unless some guarantee was forth-

coming that their properties would

be protected from proletarian seiz-

ure and their profits not eaten up by

taxation, they would sell out and

leave the country. That Premier

Giolitti could give them the required

assurance seemed extremely unlikely

at that time.

Every American with whom I

talked, and most Italians, affirmed

the impossibility of restoring eco-

nomie stability in Italy while ex-

change was behaving like a jumping-

jack. On the other hand, the lire—

there are now 14,000,000,000 in pa-

per—was at one time 4,000,000,000

before the war—cannot be stabilized

or brought back to anywhere near

normal until the rate of exports to

imports is improved. Before the war

that ratio stood at one to one-half;

now it is about one to two and one-

quarter. How imports are to be

greatly reduced and exports greatly

increased in a country which is

obliged to import most of its food-

stuffs, all of its fuel and the bulk

of its raw materials at this particu-

lar time is mighty hard to see.

Tremendous Bread Problem.

Before the war Italy imported

about 2 per cent of her grain re-

quirements. This year, owing to

augmented population and reduced

production, she must import close

upon 50 per cent. The cost of the im-

ports—something over 3,-

000,000 tons—will total over eight

## ENDS STUBBORN COUGHS IN A HURRY

For real effectiveness, this old home-made remedy has no equal. Easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night will say that the immediate relief given is almost like magic. It is very easily prepared, and there is nothing better for coughs.

Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly loosens a dry, tight cough, and soon you will notice the phlegm thin out and disappear. A day's use will usually break up an ordinary throat or chest cold. It is also splendid for bronchitis, croup, hoarseness, and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, the most reliable remedy for throat and chest ailments. To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

## Measure your COFFEE - don't guess!

**EVEN** a teaspoonful too much or too little may make all the difference between a good and a bad cup of COFFEE.

The amount of COFFEE to use depends upon the strength you like. Experiment until you find just the amount of COFFEE that suits your taste, then stick to it. Don't guess. Measure proportions carefully, both COFFEE and water.

Don't try to get more strength by letting the COFFEE pot stand on the fire and "over-draw". If you boil your COFFEE, let it boil for the briefest instant only. If you use a percolator,

don't let it percolate too long. The result, if you do, will be a bitter, "woody" flavor — the commonest fault of badly made COFFEE.

For a drip (or filter) pot use a finely ground COFFEE as fine as corn meal. For percolating or steeping use a medium grind.

In brewing, the COFFEE grounds absorb about one-fifth of the water in the pot. Therefore, to make five cups of brewed COFFEE, use six cups of water—and in the same proportion for larger or smaller quantities. (See rules for making good COFFEE.)

# IT IS FACING BANKRUPTCY IN EFFORT TO FEED POPULATION

Continued From Preceding Page.

the consumers. The balance must be borne by the Italian treasury. Thus the bread subsidy alone will cost the nation close upon \$6,000,000-000 lire (about \$250,000,000 at present exchange rates).

The evils of this phenomenon are manifold. A marked tendency to waste bread, which costs so little, and the danger of pauperizing the poorer classes are among the most

evident. Yet the Government dare not raise the price of bread. It has tried it and was promptly ousted from the premiership. Now Gliottini talks of a tax on wine as a counterpoise to the bread subsidy. His opponents, however, argue that such a tax would have to be, impossibly heavy to exercise any appreciable effect, since it would be collected in paper lire of problematical value, whereas grain bought abroad must be paid for in gold or its equivalent.

Italy's attempts at resuming trade relations with Soviet Russia are largely inspired by the hope of getting cheap wheat. Thus far, however, only 4000 tons have been received from Odessa, and of this cargo a considerable part was unfit for human consumption. Most Italians are pessimistic about the immediate possibility of obtaining food supplies in Russia, though it is generally felt that a beginning should be made in that direction.

Coal an Essential Item.  
After bread, which by averting famine is the first antidote to Bolshevism, coal is the most essential item in Italy's economic fabric, since without it industries shut down, unemployment spreads, the working class has no money to buy food, and revolution springs into being. In pre-war years the country consumed 11,000,000 tons of coal annually. Now its requirements have been cut to a minimum of 5,000,000 tons, largely through economy in domestic usage, yet it still gets less than the amounts allotted to it. And what it does get is charged for at a ruinous price—over 15 times the rate of 1913.

American coal that cost 40 lire a ton delivered in Genoa before the war now comes to 700 lire a ton, while British is about 525 lire. It is economically possible for manufacturers to use American fuel only when the dollar is below 18 lire. With the dollar at 24 lire, Italians cannot possibly buy coal across the Atlantic. At such a period—and it exists today—many industrial magnates would like to close up their plants. They cannot do so, however, because the employers' lockout would inevitably be answered by the lockout of the factory by the employees. In this connection the industrial magnate is not likely to forget for a long time to come the fact that all the Lombardy metal works were in the workers' hands for close upon six weeks.

**Raw Material Problem Less Acute.**  
The raw material problem is less acute. There are considerable stocks of steel, iron and copper still remaining in Italy from the enormous war-time accumulation. Cotton is the only important product that must be imported at the present time, and despite the fearfully high cost the Italian textile industry still can transform raw cotton in cloth at a profit, chiefly owing to the cheapness of labor.

It might be imagined that familiarity with the discouraging aspects of the industrial position would have turned Italians of the well-to-do class into profound pessimists. Generally speaking, I found that, on the contrary, the attitude of business folk was astonishingly optimistic. The optimism displayed is of the fatalistic kind, based merely on an unshakable faith that everything would be all right in the end, but none the less sincere. A striking proof of this feeling is the absence of any considerable withdrawal of deposits from the big banks in the course of the metallurgical conflict. Not a single Italian bank suffered anything resembling a run.

**Hope From Emigration.**  
The renaissance of emigration is one of the bright spots in Italy's economic cosmos. When the stream of emigrants attains its pre-war level, the country will be benefited, first, by the reduction of that surplus man power the dangers of which I have mentioned above; second, by the remittances sent home by its thrifty and industrious nation; and, third, by the export of goods abroad. For the present, emigration, particularly to the United States, is limited by restricted steamship accommodation. Yet despite this handicap, and the high cost of American visas on passports, there are several hundred emigrant applications daily at the American Consulate in Naples alone. It is estimated that this year will see half as many Italians as in 1913 crossing the Atlantic to the United States and Canada, and that the number will steadily increase.

From the industrial standpoint, the most hopeful sign is the development of water power in the North. In adding the Trentino to her domain Italy gained possession of those numerous rivers, big and small, which course downward from the Alpine watershed, and from which may eventually be developed enough hydro-electric energy to supply all the industries and railroads of the province of Piedmont, Lombardy and Venetia—the industrial regions of the North. Already concessions to the value of one and one-half billion lire, controlling 3,000,000 horsepower in electricity, have been acquired by Italian capital. It is estimated that the complete utilization of the Trentino waterfalls will reduce Italy's coal consumption by one-half, thus freeing her from the bondage of foreign fuel by which she is so sadly hampered today.

In the long run, I am informed by authorities on the subject, Italian capitalists could finance this enormous undertaking themselves. But that its development may be hastened there is general desire for capital from abroad, which thus far has been withheld.

**New Record in Freight Movement.**  
NEW YORK, Nov. 17.—New high records for freight movement were made during the first six months after railroads were returned to private ownership, the Association of Railways Executives announces. A world's record for net tons per train, 8715, was reached August, a jump from 7254 in March. The volume of freight carried in the first six months of 1920, the statement adds, exceeds the net tons carried one mile during a corresponding period in any of the last three years.

## Fiery, Itchy Skin Quickly Soothed With Sulphur

Mentho-Sulphur, a pleasant cream, will soothe and heal skin that is irritated or broken out with eczema; that is covered with ugly rash or pimples, or is rough or dry. Nothing subdues fiery skin eruptions so quickly, says a noted skin specialist.

The moment this sulphur preparation is applied the itching stops, and after two or three applications the eczema is gone and the skin is delightfully clear and smooth. Sulphur is so precious as a remedy because it destroys the parasites that cause the burning, itching or disfigurement. Mentho-Sulphur always heals eczema right up.

A small jar of Mentho-Sulphur may be had at any good drug store.

## LETTERS FROM THE PEOPLE.

### Cost of Producing Eggs.

To the Editor of the Post-Dispatch.  
 In your issue of Nov. 13 William Fitzpatrick says that at this time of year there is no just reason for eggs being so high. Well, if he knew where he speaks he would know that we are now entering the period of the smallest production of the year. And Mr. Fitzpatrick, did you know that there are two distinct classes of poultry raisers? The first is the one which keeps chickens. They spend no time at all to speak of, on their hens, and the result is that they lay in the spring when any scrub will lay and the keeper has to buy eggs in the winter from an already short market. Then there is the second class. This class invests money in good thoroughbred stock to start with, he watches his hens days in and day out to determine which are the drone and workers. By continued culling he manages after several years to raise a flock which, with the proper care and feeding, he can depend on to lay during the long, cold winter months when eggs are scarce. He studies the composition of the various grains and mill products until he finds a combination which is balanced properly to make the right amount of feathers, flesh, bones, whites and yolks. All this takes time, which entitles him to some payment. Then when the winter sets in he must invest in freezeless water fountains, as plenty of warm, clean water in the winter and clear, cool water in the summer is an absolutely necessary item in the production of eggs.  
 Then, too, he must keep his houses sanitary, cleaning out the refuse every day or two at least, buy germicides, spray the roosting quarters to keep out vermin; he must segregate sick chickens and doctor them; he must sometimes be a surgeon and set broken bones, as each hen represents just so much money, and he must finally market his eggs, which also takes time.  
 For all this time, study and work he receives at present prices about 13 cents for two eggs, which is equal to one pound of meat in food value, and which costs at present prices about 25 cents. I think if Mr. Fitzpatrick were to put in one month of this life he would want \$1 a dozen for his eggs, and yet the men who raise poultry with these methods are the men who produce the winter eggs.  
 Another factor Mr. Fitzpatrick doesn't seem to take into consideration is that feed costs about \$4 a hundred, compared to about \$2 a hundred in 1914.  
 And, finally, Mr. Fitzpatrick mentions the Chicago gamblers in connection with prices of eggs. If he kept track of the markets he would know that eggs are cheaper in St. Louis than either Chicago or New York. In fact, the commission men in New York have been paying \$1 a dozen for fresh eggs for over a month.  
 A. E. MAY,  
 Proprietor Green Tree Poultry Farm, Brentwood, Mo.

**Promiscuous Bill Posting.**  
 To the Editor of the Post-Dispatch.  
 About Aug. 1, I read in the Post-Dispatch of a meeting of theater managers in the office of Chief O'Brien of the Police Department. The story gave out at the time was to the effect that the defacing of property along principal streets by the promiscuous posting of bills was to be discontinued. Only this morning on my way downtown I saw the old habit being revived, and mostly moving pictures and dance halls posted sheets of paper on the ledges along Olive, on property and on sides of buildings that carried "Post No Bills" signs. I understand that the theater managers gave their promise that this sort of thing would stop.

**Pro-League or Bitter-End?**  
 To the Editor of the Post-Dispatch.  
 I noticed an article in the People's Column from John G. Rutter, Benton, Ill., in regard to Post-Dispatch editorials referring to the "Solemn Referendum." I would like to ask Mr. Rutter if he refers to the League of Nations in his article. If so, I would like to know whether he is for a League of Nations or against it. Also, would like for him to tell me what percentages of the people are against the league, as Taft, Root, Wickersham and Hoover were advocating a League of Nations, and the election of Harding to oblige same. Harding and Johnson were advocating Harding's election to kill the League of Nations. If he can tell what percentages voted for the Borah and Johnson view and what percentage voted according to the views of Taft, Root, Hoover and others of a similar view, perhaps he would be as good as the Post-Dispatch will get right in their editorial comments.  
 L. N. MITCHELL.

**Some Candy Cheaper.**  
 To the Editor of the Post-Dispatch.  
 Noticed an item in your editorial column of the 14th inst. signed "W. H. U. Smith." Our friend is mistaken when he states candy prices have not come down since the lowering of sugar prices. Lots of bulk candies have dropped in price. The fancy box goods, of course, have not dropped in price on account of the box itself and high wages of skilled labor. For some years fancy boxes have been scarce, especially around the Christmas season, and candy manufacturers have had to pay a big price for them.  
 CANDY MAN.

## THE LEAGUE'S WORK.

Denying that the League of Nations was in any way a superstate, threatening the sovereignty of any nation, President Hyman, in his opening speech, declared that "it is rather a clearing house, designed to facilitate frequent contact between various states, with a development of understanding and sympathy." He added: "We do not pretend that the covenant is perfect and cannot be improved."

All the proceedings and utterances in the opening session proclaimed the League to be what its preamble declared—a league to promote peace and understanding and co-operation, instead of war and friction and international foul dealing. The regret expressed that the great leader of democracy and liberty in the world is holding aloof from this tremendous movement to advance civilization and human welfare finds an echo in millions of American hearts and will soon find an echo in many more who have been indifferent to the League or despaired with regard to its purposes and methods.

Gradually, the partisan and prejudiced misrepresentation is being dissipated by the truth. The League itself and its work will be the best answers to the arguments of passion and prejudice and partisanship against its character and design. We do not believe other nations will abandon the League because America halts over party squabble. Europe cannot afford to abandon it and the nations that have suffered from aggression and the fear of aggression, the people who have borne heavy burdens of armaments and have been deterred from social progress by fear of war, will not part with the relief and the hope of peace with the promise of which the League is pregnant.

The nations within the League have only to work out its purposes, put its processes of peace in operation and demonstrate its value to mankind to obtain the active and enthusiastic support of all those who do not profit by strife or cherish dreams of conquest and exploitation.

If the work of the League demonstrates wisdom and prudence and patience in attaining its ends and perfecting its constitution, there will be no question of its value to the world. All mankind will reap the benefits and those who are on the outside as halting objects instead of on the inside as promoters and co-workers will be placed in the position of obstructors of civilization and destroyers of world peace.

Long life and usefulness to "the parliament of man, the federation of the world."

## AND NOW VENIZELLOS.

The Greeks no longer write their decree of banishment on oyster shells, but they have ostracized Venizelos as of old they ostracized Aristides. And, perhaps, for the same reason—they had gotten tired of him.

Other peoples have been similarly fatigued with their dominant war personalities. Orlando, Clemenceau, Wilson have preceded Venizelos down the plank of popular repudiation. Only Lloyd George remains of the great Premiers that bore the brunt of civilian leadership through the years of shock and carnage.

Though somewhat removed from the center of the stage, Venizelos unquestionably played a great part in the war. Nobody questions that Constantine, ruled by the stronger will of "Sister Sophie," was a mere tool of Berlin. His pretended neutrality was treachery. Excepting for Venizelos there is little doubt that Greece would openly have joined the Central Powers, thereby adding seriously to the burdens and complexities of the Entente. But Constantine went, the heir-apparent was denied his inheritance, the throne was given to a more acceptable second son by the Greek Warwick, unmaker as well as maker of Kings. Of the luminous figures at Versailles, none outshone Venizelos. It was the judgment of a distinguished American correspondent that, in intellectual force, the Greek statesman surpassed them all. But Venizelos returned to a nation disappointed with his failure to get what the Greeks believed their due. Now he is rejected, in a solemn referendum, almost as decisively, it seems, as was Wilsonism on Nov. 2.

Do supermen get on the nerves of democracies?

## NO MORE FOREIGN RELATIONS.

From London to New York will be but a day's safe, comfortable sailing in the giant airplanes of the future. Nor is that future remote. Possibly within five years, almost surely within 10 years, the Atlantic Ocean will be a 24-hour stretch. Such is the prediction of H. G. Fokker, the Dutch inventor, whose genius Germany owed her air supremacy during the greater part of the world war.

Mr. Fokker has come to the United States to see what we are doing in aircraft manufacture and also to put his own products in the American market. His prediction as to the early utility of the airplane in international traffic necessarily commands respect; it is the judgment of authority, not the enthusiasm of the optimist.

That this prophecy will be fulfilled is not to be doubted, though it may not come so soon. But one it will, and great as are the commercial possibilities of such a factor, they are secondary to the political and cultural consequences. With the world remote, obsolete, with all the peoples of the world huddling one another's elbows, and, eventually, talking a common language, the department of foreign relations must disappear from governmental bureaucracy, for the very good reason there will not be any foreign relations.

## EDITORIAL SPARKS.

Kenesaw Mountain Landis will receive a mountain salary—Omaha World-Herald.

"Elsie changed her brown hair to red in spite of her fiancé's pleading not to do so." "How could she so disregard a loved one's dying request?"—San Francisco Chronicle.

President Wilson thinks that "the youth of the land will rally to the league." It will, if it is made plain that Tris Speaker, Eddie Collins and Ty Cobb are going to be prominent in it.—Houston Post.

The Bolshevik Government is collapsing again. The only ration is raw apples. Inasmuch as we paid 10 cents for the last raw apple we had, it seems to us the Russians are living high.—New York Mail.

Don't get fooled about the presidential tenure. If Woodrow Wilson lives out his present term he will be the second President since Andrew Jackson to serve eight consecutive years. It's a hard old job.—Houston Post.

relations must disappear from governmental bureaucracy, for the very good reason there will not be any foreign relations.

Our isolationists still strut their little hour, but their hour is swiftly going. Our Johnsons, Borahs, Lodges, Reeds may retard intelligence and aspiration, but the regimen of their provincialism is hummed by flying engines, vitalized by the tinkle of destiny, gasoline.

**UNIONISM AND SYMPHONY ORCHESTRAS.**  
 Of the \$375,000 asked to maintain the Symphony Orchestra during the next three years—\$125,000 a year—but about \$37,000 has been contributed to date. The work of obtaining subscriptions has been hampered by a very curious objection. The instrumentalists of the orchestra are members of the musicians' union and some St. Louisans from whom generous contributions were expected, large employers of labor, are said to be bitterly hostile to unionism in any form. They decline in consequence to subscribe.

It is difficult to believe that such an attitude is representative of the broad-gauge men of large affairs who are engaged in the upbuilding of the New St. Louis. Indeed, it is gratifying to learn that while this view has been found this year a serious handicap to adequate provision for the orchestra, it is not tenaciously held and is now admitted to be a mistake by some who entertained it.

The orchestra is no more committed to unionism this year than in former years, when a ready and liberal response was made to appeals for its support. So far as the high purposes for which it exists are concerned, what difference does it make whether the orchestra is a closed-shop or open-shop institution? Will the fact that it is one or the other affect its rendition of the musical classics? Is an open-shop orchestra that does only indifferent work to be preferred to a closed-shop orchestra that satisfies the most exacting standards?

The Post-Dispatch's repeated counsel to unionism when its great day of opportunity came during the war was a counsel of moderation, with avoidance of extremes that might subsequently bring a reaction. That is good advice now to those unsympathetic to the aims of unionism. An advantage pressed too far, an unfair opposition carried to unreasonable limits, will inevitably have an unfavorable effect on public sentiment that must be reckoned with later.

The serious thing is that, whatever the cause, the orchestra is being denied the full co-operation it deserves in obtaining the needed guarantee fund. A reciprocity is hinted at as an ultimate possibility—but that is incredible. With its symphony organization bankrupt, St. Louis would be poor, indeed, insolvent itself through the loss of one of its valuable assets.

"Texas is incalculable," exclaimed Mr. Harding, who perhaps could now ruefully add that Texas is inexplicable.

## THE SENATE BATHS.

The Republicans promised, during the campaign, to restore efficiency to the conduct of the grave affairs of state, and a story from Washington is proof they intend to keep that pledge. The story has to do with the Senate baths.

The public, with its notoriously short memory, may have forgotten about those baths. Without dwelling too long on one of the most voluptuous episodes of the entire Grand Old Party's ascendancy, let it be said that the Senate baths were achieved during the Taft administration. They were ravishing, yes, great. The illustrious Romans never lavished their limbs in any such splendor. Colonades of purest Parian marble led to deep, pellucid pools. Classic groups of sculpture transformed occasional niches into treasure troves—sculpture such as the chisel of Phidias never conceived. That also goes for Praxiteles. The plumbing was done in near-Etruscan gold.

Our proletarian Democrats in Congress looked with stern disapproval on those abominable appointments and declared that, once in power, they'd make those baths as dry as the drouth that once distinguished Kansas. And they did. For the eight provincial, almost primitive years of the Democratic regency those baths might as well have been in Babylon, Nineveh or Wichita. Never has a Senator pondered how he might serve the masses while contemplating the marbled glories into which his constituents had thrust him. With Spartan fidelity the Democrats closed up those baths.

Now, those baths cost money. They did not spring forth full-panoplied from the Jevian tariff's brow. Consequently, during the eight penurious years of the Democratic administrations, this investment has been a perfect loss. Such waste, such well-nigh criminal incompetence, is distasteful to the Republicans. It is not longer to be tolerated. So, sculptors and plumbers and Persian rugsters have been put on the job, and on March 5 the senatorial bathhouse will resound to the solemn splashing of our statesmen.

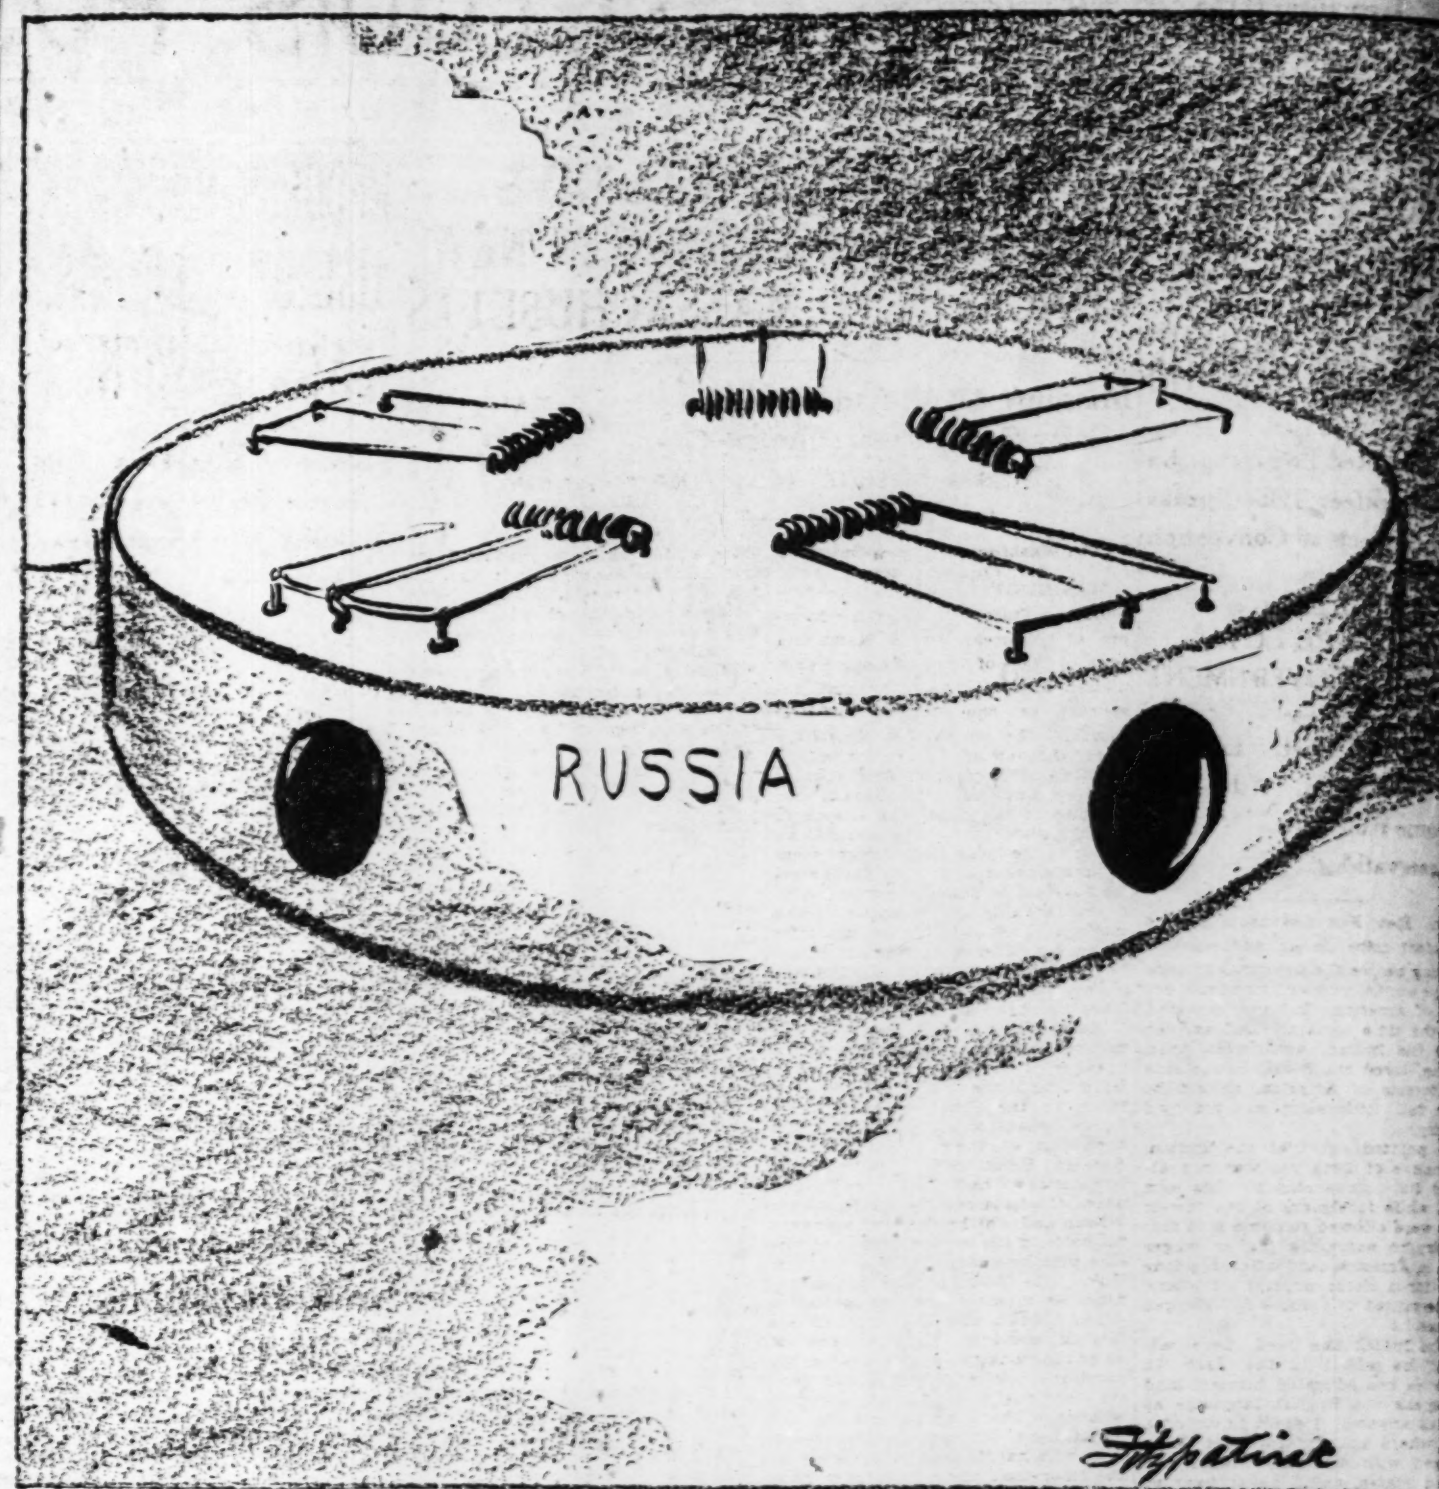

The Republican redivivus is to be a real renaissance. An Augustan age impends. Hail, knights of the bath!

The prohibition party feels it cannot afford to quit at this time, and the same sentiment, it is surmised, is held by the bootlegger party.

## HER SOUL GOES MARCHING ON!

Life among Indians of the Northwest has recently said something very interesting about our understanding of Indians. The Indian, he says, is essentially a communist. We have never understood him there, since individualism is so characteristic of our own civilization that to get may be said to be the ruling passion of our lives. It is not so with the Indian. He covets nothing for himself. He thinks only in the terms of the community of which he is a part. Possibly that is a better attitude toward material things than our own. It seems, at any rate, to be standing Europe upon its head.  
 "We have ridiculed and robbed the Indian, but we shall live to respect him and restore him to some part of his own. I want you to listen to this from the same missionary, who knows something about Indians:  
 "The Indians volunteered far more generously and promptly than the white boys. Not a single district that included an Indian reservation in South Dakota had to resort to the draft, because the Indian boys volunteered so promptly. The first soldier of South Dakota to receive a decoration in France was Chauncey Eagle-Horn, who afterward gave his life for his country and lies under one of those wooden crosses in France. He was a son of men who fought against our own flag under Red Cloud and Sitting Bull.  
 "Yet, we have thought of the Indian as a stupid, a scoundrel, an inhuman thing. The Indian in warfare was only trying to defend himself. Put yourself in his place. Think what your soul would have been under the same circumstances. We thought of him as a dull person, of small understanding, when all the time we have been dull ourselves. The Indian's problem is you and me. He can be whatever you and I think he can be. His capacities are fine, but they do not get an outlet unless we believe in him."  
 "And then, down in the soul of the Indian, besides these things, I think there is—what may

be comradeship. Be a fellow with sorrow. Her eyes are not somber. Nay, they are heavy with sweetness. Remember, beloved: So near as thou dost lean upon the breast Of sorrow, confidently, with assurance, Just so sure art thou reassured. ## MR. ANTWERP'S OPINION.

"LET us hope that pretty much everybody's conscience will attend the Indian convention in St. Louis this week," Mr. Antwerp said. "There has been no reason why, with efficient administration, any of the Indian tribes should have suffered either decimation or want, and we ought to see that there is such administration."

"The only rich tribe of Indians we have in the country is the Osage. We made them rich by dispossessing them of their lands in Missouri and moving them upon land considered to be worthless, but consequently turning out to be rich with oil. There are other tribes which have not been so fortunate. For instance, we are told that the Blackfeet, a fine tribe of Indians in Montana, are fairly starving. They have had a succession of drouths, and neither their cattle nor their horses remain to them."

"Our treatment of a people whose country we wrested from them by force is going to be a black page in our history before we get done. We have never thought of our own culture. We have never thought of him as having a culture of his own out of which he could, with our aid, develop. People who know the Indian well are pointing this out to us now, when little remains to the Indian for us to take. The time has come to give."

A missionary who has spent most of his life among Indians of the Northwest has recently said something very interesting about our understanding of Indians. The Indian, he says, is essentially a communist. We have never understood him there, since individualism is so characteristic of our own civilization that to get may be said to be the ruling passion of our lives. It is not so with the Indian. He covets nothing for himself. He thinks only in the terms of the community of which he is a part. Possibly that is a better attitude toward material things than our own. It seems, at any rate, to be standing Europe upon its head.  
 "We have ridiculed and robbed the Indian, but we shall live to respect him and restore him to some part of his own. I want you to listen to this from the same missionary, who knows something about Indians:  
 "The Indians volunteered far more generously and promptly than the white boys. Not a single district that included an Indian reservation in South Dakota had to resort to the draft, because the Indian boys volunteered so promptly. The first soldier of South Dakota to receive a decoration in France was Chauncey Eagle-Horn, who afterward gave his life for his country and lies under one of those wooden crosses in France. The Indian's problem is you and me. He can be whatever you and I think he can be. His capacities are fine, but they do not get an outlet unless we believe in him."  
 "And then, down in the soul of the Indian, besides these things, I think there is—what may

I call it—the ability to stand fast; the integrity, the fundamental something that lies at the root of a race which can be trusted; that something in human character to which you pin your faith. It is in the Indian people. It shows in their self-respect, in their dignity of procedure, in their courtesy toward others. I am sometimes a little ashamed of the attitude of white men toward Indians, in contrast with the courtesy of the Indians toward their white guests. I take people out occasionally to see my Dakota. They are good people, Christian people, and yet one could see they felt as though they were going to a circus to see the animals. But did my Indian people fail to show courtesy and dignity and respect to them? Not at all. These things are fundamental in the Indian character. You never saw an Indian who was knowingly grotesque, or absurd, or foolish, or lacking in self-respect."

If anyone still doubts that the League of Nations is all the irreconcilables have thought it would be, permit us to offer for consideration the unpaid cigar bill of \$16,000 remaining unpaid after the conference at Spa. The Belgians furnished the cigars upon that occasion. The cigars were either smoked or carried away by the delegates. The Belgians are still holding the sack. They have no more than a claim, the substance of which has to this time merely gone up in smoke. We wish to say that our advocacy of the League through the recent political unpleasantness was in entire ignorance of this cigar bill. Had we known about it, our readers would have found us fighting day by day with Senator Harding and applauding the wisdom of Senators Borah, Johnson and Reed. That the Republicans knew about it and forebore we feel pretty sure. They probably figured that they could win without saying anything about it; and not even the last days of the campaign, which are always bitter, found them letting fly with this sockdolager, which about kicking the British used to be, they will probably project another great idea that quality in man really being the source of all great ideas.

A colony of Britons, following the illustrious example of our own Puritans, are going to the South Seas to escape the high cost of living. If they are the ascetics the British used to be, they will probably project another great idea that quality in man really being the source of all great ideas.  
 The landing of the Pilgrims will be celebrated here Nov. 22. We hope something will be said about kicking the British out of the United States Senate.  
 MY SORROW.

 It hath been anointed with a sacred oil.  
 It is become a covenant twist thee and thy God.  
 The day is not broken, nay nor the hours.  
 Become empty things. Lo, in their new sacred Of fire are they delivered unto thee as fellows.  
 Be comrades. Be a fellow with sorrow.  
 Her eyes are not somber. Nay, they are heavy with sweetness. Remember, beloved: So near as thou dost lean upon the breast Of sorrow, confidently, with assurance, Just so sure art thou reassured. There is strength in her companionship: Deliver thou thy hands fearlessly.  
 PATIENCE WORTH.

Two Great Parties Needed.  
 From the Milwaukee Journal.  
 "The death of the Democratic party," says the candidate of the Farmer-Labor party, and others make the same prediction, basing it on the landslide of the last election. Similar things have been said of both parties for 50 years. The Democratic party is not meribund today because it is not a party. It is a party because it is a party. The Republican party was in 1912. It will fight again, and it is sincerely tries to serve the nation it will win again. Its fortunes depend upon its character. The country needs two great parties, and the more nearly equal they are the better, for ours is a party system. The leadership of the Republican party is just now conservative. The country needs a party also that is progressive. Ultra-conservative breeds conservatism. The cure for radicalism is conservatism. Here is a task for the Democratic party. Here is hope and much of the country's welfare also. If it serves the country it will not die.

## MINISTER MAKE CITIZENSHIP PL FOR THE INDI

The Rev. Red Fox Skithushu of Blackfoot Tribe on Subject at Conv Here.

SAYS ALL ARE LOY TO THE GOVERN

Jonathan Tibbet, L of California, Adv Home Rule for the V Reservations.

Rev. Red Fox Skithushu Blackfoot tribe, in an address morning before the delegates to the annual convention of the American Indian Union, that the time certainly had when the Indian, who many, loved the fields, in and forests of America, sh given full citizenship in country.

He pointed out that the native of America, was lowered full citizenship in land, while foreigners of the class were allowed to make money in the United States, and after here for a short number of years, they were permitted to become full citizens.

"The Indian has lived in ways," he said. "In the years he has educated him can speak the English language as well as anyone. I don't know where an Indian was charged with disloyalty to the United States, and I never an Indian making any ut favoring a foreign nation in war. The Indian is the type per cent American, and it is about time that he be recognized as a citizen."

Controlled Like Prison. "He is oppressed by Government like a prisoner in a penitentiary. His own idea betterment of his race are the attention by Government in Washington."

Touching on the Japanese Orientalism, he pointed out Japanese in the last few years been allowed to acquire land and very little has been done getting a foothold in the United States.

In the State of Washington Japanese own and operate a milk and 80 per cent of the in the fish canneries and packing industry. The industrial plants in Washington, including fish oil and fertilizer, are owned and operated by Japanese, he added. Best Orientalism, he said, has secured a foothold in the laundry throughout the United States pointed out, and 66 industries in the State of Washington under the supervision of the Labor Department employ "The Japanese are even a lease Indian lands from the government agents, and these transactions are, graft money for their own use," he continued.

17,000 Indians in Army. "The Japanese who for America in the world war, wanted by being given full ship. There were 17,000 Indians in the army. They given full citizenship. The also bought approximately 600 of Liberty bonds, and a \$2,000,000 to the Red Cross. The reason for the Japanese in our army cannot be with the patriotic spirit prompted the 10,000 of 17,000 Indians who served, he said. No one can tell me Japan is not here for what get out of this country. America and Japan should either in conflict the major Japanese would not sympathize with the Japanese. He referred to the service Indians during the Civil War. Thousands of Indians fought in the Union army. There were blooded Indians on General staff, he declared.

"The Indians in the G thought for the freedom of their race," he said. "The new given their freedom along citizenship. The Indian is in the fetters of slavery and control."

Management. Touching on the extraneous management in the presentment officials over the mentioned that there were twenty 1909 Government gave all their time in many times such a poor governed very efficiently.

"The Store With the Big Victrola"

"They told me to keep my hands off and let the machinery come," MacNeil declared.

The Terry Yard, he testified, had a complete equipment and contracts for several tankers and composite ships, none of which was completed. He said that while there was sufficient lumber at hand to build sheds to protect the exposed machinery, it was not done. The marine railway, he testified, was built on land owned by a private individual, who had an agreement for rental of his property with no specific amount named. The railway was built with emergency fleet funds amounting to about \$100,000, with an additional \$12,000 worth of filling supplied by the Government for another operation. This property, he said, was in controversy, and it was his opinion that under the laws of Georgia it was "owned by the man who had

## BIG ULCER ALL HEALED

"Now I Can Walk," Says  
Mrs. Southcott of Medina.

"Here is another letter that makes me happy," says Peterson of Buffalo, N. Y. "I would rather have than a thousand dollars."

"Money isn't everything in this world. There is many a big hearted, rich man who would give all he has on earth to be able to produce a remedy with such many healing powers as Peterson's Ointment. To sell at all drug stores for 24 cents a large box."

Read this letter, written February 14, 1918, by Mrs. Albert Southcott of Medina, N. Y. "It seems like a miracle, but it is true every word of it. I had a big ulcer on my leg, and it was so bad that I could not walk. I tried everything I could find, but nothing would do. I then tried Peterson's Ointment. I am happy to say that it has healed my ulcer, and I can now walk. I am sure it will cure all ulcers."

Dear Sir—

I was an untold sufferer from an old running sore and ulcer. I had tried most everything without any relief from pain. A friend told me of your wonderful ointment and the first box took away the pain. The second box made me walk in pain and after using just nine dollars worth of the ointment, my ulcer is all healed and I can walk. I never will be without Peterson's again.

You may use the ointment for your ointment. If you wish, you cannot say enough to praise it. Yours truly, Mrs. Albert Southcott, Medina, N. Y. Mail order—Peterson Ointment Co., Buffalo, N. Y. Jones & Dolan, N. Y. Medicine, Erie, Pa. and West.

Steward Service.

The steward service of the board was gone into by Sidney T. Ackerman, recently on the steamship South Pole. He told of alleged unsatisfactory methods of making purchases of supplies and engineers. Board vessels in foreign ports, particularly at Newcastle, England. Bologna, he said, cost the board more than veal.

Ackerman was steward of the steamer Dio, which previous witnesses said was the ship concerned in the manipulation of fuel oil at Rio de Janeiro with alleged profit to its captain and some of its officers of \$9000. He said he had nothing to do with this matter and was not asked to join in it. He did corroborate testimony of previous witnesses that sufficient fuel was taken on board in the South American port to last the ship for nine months, the meat being bought by the captain. Some of the meat, he added, was thrown overboard after the ship put to sea because it was spoiled.

Officials of the Submarine Boat Corporation yesterday took exception to testimony given before the committee by Thomas H. Purcell, who said he was an inspector of hulls in the corporation's yard in 1918 and described riveting work there as "inferior."

The statement claims the vessels, the hulls of which Purcell testified he inspected only recently have been examined by the department of the supervising engineer and found to be entirely tight and seaworthy. The corporation officials say the ships in question have been through severe tests at sea and are now reported by masters and engineers to be in no need of repairs, which reports they claim should show Purcell's testimony to be unfounded.

## MINISTER PLEADS FOR CITIZENSHIP FOR THE INDIANS

Continued From Preceding Page.

money and refused to lease more ground for development and sale. The tribe inaugurated a persistent fight for the leasing of the land, and finally the Government officials were forced to consent to their demands, and 150,000 more acres were leased in Osage County. Through this development of the lands, Osage County is now furnishing 51 per cent of the gas for Missouri, Kansas and Oklahoma.

The Indians also receive a bonus in addition to the royalties paid them on the oil leases, he pointed out. Approximately \$15,000,000 in royalties, and approximately \$15,000,000 in the form of a bonus has been paid to the tribe since 1918, he said. The Indians hold all the mineral and oil rights in Osage County, and as fast as additional fields are opened they will be given their share of the oil.

"The tribe has nothing to want for," he continued. "They have fine homes and many of them spend their winters on the seashore. They do ask a square deal for other more unfortunate tribes, and are contributing much to the aid of the tribes."

Kiowa Chief in Attendance.

Delos K. Lone Wolf, a chief of the Kiowa tribe in Oklahoma and an active leader in all matters pertaining to the advancement of the Indians, is an interesting figure at the convention. Chief Lone Wolf was the Carlisle Indian school football star from 1893 to 1897, and in 1895 made the All-American team. He has often been spoken of by sport writers as the greatest center football has ever known.

Chief Lone Wolf also was the model who posed for the sculptured work "The Last of His Race," showing an Indian on a wild pony fighting a buffalo, which was given a prominent place at the Chicago World's Fair. Chief Lone Wolf was then said to be the most perfect Indian physically, and even now, though 50 years old, he has a remarkable physique. He spoke at the convention yesterday, telling of the mistreatment of his tribe at the hands of Government agents.

As an example of the Indians' desire for advancement, a 35-year-old Indian from the Apache San Carlos reservation in Arizona was sent to the convention by his tribe with funds raised by subscription from their meager savings. The Indians on the San Carlos Reservation have not had the opportunities that some of the tribes have had, he declares, and he was sent to try to find out what could be done to aid their advancement.

Represents Poor Tribe.

His tribe is among the poorest, he says, and has no funds from which to draw for its support in case of crop failures. In a modest way he tells about his trip to Washington, D. C., a year ago, and how he contracted influenza on the way, and although unable to speak above a whisper when he arrived, he went to the Indian office to find out what could be done for his tribe.

At the Indian office his pleas were not heeded, and he was told to get out or he would be thrown out, he added.

Brigadier-General Richard H. Pratt, veteran of the Civil and Indian Wars and a great champion of Indian rights, arrived in St. Louis last night, and will speak tonight at a special reception for former students of the Carlisle Indian school. Gen. Pratt was superintendent of the Indian school for 25 years previous to his retirement from active service.

Gen. Pratt has fought strongly the Indian bureau system, and repeatedly has urged President Wilson to abolish the system. He declares that in all its years of the existence the Indian bureau has not had one sensible or constructive idea. The Indian, he says, has never had a chance to allow his idea of life to attain the plane that it really should have.

When an Indian who has received an education among the whites returns to his tribe and attempts to arouse them from their lethargy he is taken in charge and oftentimes expelled from the locality, he asserts.

Our Rapid Growth  
Constantly Calls for  
New Capital, of Which  
We Get All That We  
Can Here at Home,  
By the Sale of  
Union Electric  
Preferred Stock

Union Electric, supplying St. Louis and the greater St. Louis District with electric light, heat and power, is one of the fastest growing utility companies in the United States. It has to be, in order to keep pace with the growth of the St. Louis district.

Union Electric has made good on its job. The St. Louis district, growing rapidly during the past four or five years, is one of the few big industrial districts in the United States which have NOT suffered from an electric power shortage during the past year.

Rapid expansion of Union Electric's power producing and distributing systems calls for constant investment of new capital. During the past three years Union Electric has raised nearly \$3,000,000 of this new capital here at home, by selling 7% preferred stock to its customers and other friends in the St. Louis district. We expect to raise additional millions in the same way, for the same purpose, during the years just ahead.

We recommend this preferred stock for purchase by our friends here at home, as "Missouri's safest 7% dividend-payer," for these reasons:

First: A thorough State appraisal proves the business is legitimately capitalized.

Second: State regulation prohibits issuance of a dollar of securities except to capital additions to property which have been or are to be made subject to State approval.

Third: The State, recognizing the right of utility investors to a yearly fair return on honest capitalization under sound management of the business, obligates itself to protect that fair return at the same time that it protects utility customers against excessive rates. State regulation, administered in this spirit, thus undertakes to maintain a condition under which sufficient new capital will be attracted into the business to enable it at all times to provide the public with ample good service at its fair cost.

Fourth: Union Electric's long record of low rates, good service and regular payment of moderate dividends has won for the company the confidence of its public and its investors—an asset of great value which the Company means to retain by continuing to deserve it.

If a regular and dependable 7% income from your savings or idle capital appeals to you, you can get it by buying shares of this stock at room 201 Union Electric Bldg., 12th and Locust streets, St. Louis, or at Union Electric's offices in Franklin, Jefferson, Union, St. Louis and St. Charles counties.

Price, \$100 a share for cash; \$102 on a ten-monthly-payment plan.

Full details of the Company's business will be mailed, or brought to you, on receipt of your name and address:

**25 ORGANIZATIONS JOIN CAMPAIGN TO OBTAIN PURE MILK**

Citizens' Committee to Conduct the Movement Formed With Mrs. M. J. Seelig as Chairman.

SOME DISTRIBUTORS AT THE MEETING

Director of Public Welfare Outlines Amendments to Ordinances He Said He Would Propose.

Twenty-five organizations yesterday reported their readiness to participate in a campaign to obtain whatever safeguards are necessary to advance the quality of the St. Louis milk supply toward purity through representatives sent to the organization meeting of the Citizens' Milk Committee in the Vandervort Auditorium.

The 100 persons present also included representatives of the St. Louis distributors of the Southern Illinois Milk Producers' Association which furnishes 80 per cent of the city's milk supply, of railroads who are to be asked to more carefully preserve milk in transit and of the Department of Public Welfare, which, through its director, John Schmoll, indicated some of the corrective measures the necessity of which it believes are already apparent.

These included amendments to the milk ordinance raising the butterfat requirement from 3 to 3.25 per cent to conform with the State standard, increasing the number of milk inspectors in the Health Department from six to 18, provision specifically that whole milk, or milk as it comes from the cow, shall be sold instead of standardized milk, which is milk to which skimmed milk has been added, and authorizing the Health Department to reject milk produced or handled under conditions known to be bad.

Welcomes Aid of Women.

Director Schmoll said that the Health Department welcomed the women's movement as the first offer of constructive help which the department has had. He urged that the women "do the job well" and make their suggestions practical ones which can be enforced.

Representatives of the following organizations answered roll call at the meeting: The Consumers' League, Chamber of Commerce, Child Conservation Congress, Missouri League of Women Voters, Central Council of Social Agencies, Children's Aid Society, College Club, Y. M. C. A., Eighth District, Federation of Women's Clubs, St. Louis Tuberculosis Society, Red Cross, Metropolitan Life Insurance Co., Barnes Hospital, Washington University Medical School, Pioneers' Club, Miriam Lodge, St. Louis Women's League, Woman's Christian Temperance Union, St. Louis Children's Hospital, Third District, Missouri State Nurses' Association, National Council of Mothers, Wednesday Club, Council of Jewish Women and the Board of Religious Organizations.

The permanent organization was with the following officers: Mrs. M. G. Seelig, Council of Jewish Women, who organized the movement, chairman; Mrs. Fred English, former president of the League of Women Voters, first vice chairman; E. J. Russell, City Plan Commission, second vice president; Mrs. Frederick B. Clark, Town Club, secretary, and Charles H. Diehl, Chamber of Commerce, treasurer.

Woman Chief Speaker.  
The chief speaker was Mrs. George Hoxie, wife of a Kansas City physician, who has led an eight-year fight for pure milk in Kansas City. She recited progress which the women had made there and summed up their experience in the following advice to the St. Louis women:

"Don't theorize. Study local conditions, find out what's the matter and then adopt corrective measures. Give the industry fair time in which to comply with the requirements and then, if they don't give them the dickens."

It is planned to establish the committee as a permanent sentinel over milk, operating on an annual budget.

**"EDUCTOR," A SEWER-FLUSHING DEVICE, SAVES \$1700 IN MONTH**

Director Talbert Will Recommend That City Purchase More of the Apparatus.

One month's use of the "eductor," a sewer flushing and cleaning apparatus, by the municipal sewer division has shown a saving of more than \$1700 over the old manual method. William M. Clancy, a division superintendent, has reported. The apparatus, which is inserted into sewer inlets and pumps out excess refuse, has replaced seven teams, which formerly cost \$58 a day, and seven men, whose wages were \$22.75 a day.

The daily saving on 22 working days of the month since Oct. 21, when the "eductor" was started, has therefore been \$121.75. There were 375 inlets flushed at a cost of \$1.09 each, the former cost having been about \$2.50. The machine cost \$10,000 and Director of Streets and Sewers Talbert will recommend the purchase of three more of them.

Men formerly donned hip boots and descended into the sewer inlets to flush them, the refuse being hauled away in wagons.

## 7 HURT IN MOTOR VEHICLE ACCIDENTS

Man Thrown From Truck in  
Collision; Arrest Made  
for Careless Driving.

Seven persons were injured in motor vehicle accidents yesterday. Elmer Hawkins, 23 years old, of 1220 Temple place, suffered a fractured skull and fracture of both jaws when he was thrown from a truck he was driving onto the sidewalk when the truck collided with a truck driven by Michael Skelly, 1010A Morrison avenue, at Arlington and Ashland avenues. He was taken to St. John's Hospital. Skelly was arrested. Hawkins' truck was damaged \$200, and the Skelly truck \$25.

William Clotch, 20 years old, of 1314 Montgomery street, was cut and bruised when he was thrown from a truck in collision with an automobile driven by Erwin Weremeyer, 2132 Benton street, at Fifteenth street and Cass avenue. Weremeyer was arrested for careless driving and Clotch held for failing to keep close to the right-hand curb.

**Knocked Off Bicycle.**  
Charles Horst, 15 years old, of 3581 North Broadway was knocked off his bicycle by a truck driven by Bert Cox, 4231 Kennerly avenue, as the truck came out of a driveway near Hall and Destrehan streets. He was cut and bruised.

Kemp Leonard, 45 years old, of 6206 Alabama avenue, an electrician, driving an automobile belonging to the police and fire alarm system, was cut on the face and head when the tongue of a wagon driven by Charles Neilly, 4203 Papin street, a negro, rammed through the windshield of his automobile at King's highway and Clayton avenue. He was treated at Barnes Hospital and taken home. Neilly was arrested for having no lights on his wagon.

James A. McDermott, 23, 4341 Fyler avenue; John O'Donnell, 35, same address, and Albert Kaufman, 2511 Tada avenue, were cut and bruised when an automobile driven by Kaufmann collided with a bread wagon driven by Philip A. Reinwald, 4221 South Thirty-seventh street, at Grand and Shenandoah avenues. Kaufman was arrested.

## NO SPECIAL LEGISLATURE TO REVISE TAX LAWS

Gov. Gardner Says Changes in Corporation and Income Taxes Can Go Over to January.

Gov. Gardner announced in Jefferson City last night that he would not call a special session of the Legislature in December to revise the corporation franchise tax and income tax laws. He said that in view of Attorney-General McAllister's opinion that these laws could as well be revised at the regular session in January, the special session would be unnecessary.

The Governor had requested the Chamber of Commerce of St. Louis and Kansas City to send delegations to Jefferson City to confer with him today regarding the special session. St. Louis business interests, represented by members of the Chamber of Commerce and of the Associated Industries, decided yesterday afternoon that no delegation should be sent.

Several Democratic office holders, whose appointments had not been confirmed, had been active in urging the special session, expecting the Senate to confirm them. Their confirmations will be refused by the new Senate, a majority of which will be Republican, when it meets in January.

## "JACQUERIE" TO BE SUNG IN CHICAGO

Marinuzzi Will Conduct His New  
 Opera at Opening of Season  
 Tonight.

By the Associated Press.  
 CHICAGO, Nov. 17.—The 1920-21  
 season of the Chicago Grand Opera  
 Company will open here tonight  
 with the first American performance  
 of Gino Marinuzzi's new opera,  
 "Jacquerie," with the composer con-  
 ducting.

The opening performance also  
 brings Marinuzzi's ascension to the  
 post of the late Cleofonte Campanini  
 as musical director of the organiza-  
 tion.

The new Chicago season marks  
 the first time in American musical  
 history that an American business  
 management has been at the head  
 of an opera organization, with the  
 roles of business director and musical  
 director divorced. Maestro Mari-  
 nucci devotes all his time to the ar-  
 tistic phases of opera production,  
 while Herbert H. Johnson looks af-  
 ter the business affairs.

Yvonne Gall, Carlo Galeffi, Ed-  
 ward Johnson, Lodovico Oliviera,  
 Dora Debra, Vittorio Trevisan,  
 and two newcomers to the local  
 opera field, Sallustia Cival and Tus-  
 silio Dentale will sing the principal  
 roles in "Jacquerie," which is a story  
 of a French revolution in the thir-  
 teenth century.

Plans for the opera season include  
 the first presentation of Leoncaval-  
 lo's last opera, "Edipo Re," with  
 Titta Ruffo in the principal role,  
 and Mary Garden in the first presen-  
 tation in Chicago of "Aphrodite,"  
 scheduled for New Year's eve. Other  
 stars to appear include Loris  
 Muratori, returning from a long ab-  
 sence abroad; Amelita Galli-Curci,  
 Rosa Raisa, Florence Macbeth, Al-  
 lessandro Bonci, Forrest Lamont, The  
 Schipa, Georges Baklanoff, Hector  
 Dufranne, Edouard Cotruel, Virginia  
 Lazzari, Constantin Nicolay and Vi-  
 torio Trevisan.

New singers include Rostina Ste-  
 chio, who created the title role of  
 "Madam Butterfly" at La Scala in  
 1904, Riccardo Martin, tenor; Joseph  
 Rislop, the Scotch tenor, and Albert  
 Paillard, of the Opera Comique.

Johnson has announced that two  
 Wagnerian music dramas, "Lohen-  
 grin" and "The Valkyrie," will be  
 sung in English.

## BELIEVE ENEMY KILLED PANEK

Theory That Polish Army Veteran  
 Was Shot in Holdup Abandoned.

Detectives on the case of Stanley  
 Panek, 25 years old, of 1218 North  
 Ninth street, East St. Louis, who  
 was shot and killed at 10:30 o'clock  
 Saturday night at Ninth street and  
 Exchange avenue, are working on  
 the theory that he was killed by  
 some person known to him, and who  
 may have had a grievance against  
 him.

The first theory was that Panek  
 was shot while resisting a holdup,  
 but this has been abandoned be-  
 cause Panek was shot three times  
 and nothing was stolen from him.  
 Two men were seen running from  
 the scene. Panek had less than \$1  
 in his pockets. He was shot once  
 in the abdomen and twice in the  
 left breast. Panek served in the  
 Polish army during the World War  
 and returned home about six months  
 ago.

### DOCTORS USE CALOTABS FOR COLDS AND FLU

Influenza and Grippe, Like Ord-  
 inary Colds, Require Calotabs,  
 the Purified and Refined Calo-  
 mel Tablets That Are Nausea-  
 less, Safe and Sure.

Doctors are warning the public that  
 simple colds and mild cases of influ-  
 enza often lead to pneumonia and other  
 serious complications. They say that  
 every cold should receive immediate  
 attention and that the first step in the  
 treatment is to make sure that the liver  
 is active. For this purpose Calotabs,  
 the perfected, nausealess calomel table-  
 ts, are the surest, best and most  
 agreeable laxative.

One Calotab at bed time with a swal-  
 low of water—that's all, no salts, no  
 nausea, and no upsetting of the diges-  
 tion and appetite. Next morning your  
 cold has vanished, your liver is active,  
 your system is purified and refreshed  
 and you are feeling fine with a hearty  
 appetite for breakfast. Eat what you  
 please—no danger.

For your protection, Calotabs are sold  
 only in original sealed packages, price  
 thirty-five cents. All druggists recom-  
 mend and guarantee Calotabs and are  
 authorized to refund the price if you  
 are not delighted with them.

441 Pairs Will  
Try for Honors  
In Middle West

Secretary Heidel Announces That  
Singles Entries Will Run Be-  
tween 850 and 900.

Frank Heidel, secretary of the local tournament company, which is handling the annual Middle West event to be bowled on the Washington alleys, starting Nov. 19, announced today that 441 teams had entered the two-man competition. A complete count has not been made of the singles, but it is expected that the total will run between 850 and 900 individuals.

The local tournament is a record for the Mid-West Association, and it is expected that the prize fund will be close to \$10,000. The entry fee of the five-man teams brought in \$6100, while that of the two-man teams amounts to \$4410. If 850 are entered in singles, this will make \$4250, making the total \$14,760. Then there also is a 25 cents additional fee for those who will strive for the all-events prizes.

Eight teams will roll on opening night, three being members of the Junior Chamber of Commerce League. Next Saturday will be a big day for out-of-town quintets, as 21 have been scheduled to bowl. Five of these will roll on a shift at 6 o'clock, while eight will compete at 9 o'clock, and a like number at 9:15.

Bowling Starts at 7 A. M.  
The first big day will be next Sunday. Bowling will be started in doubles and singles at 7 o'clock in the morning and will run throughout the day. One squad of five-man teams will be put on at night. The competitors in doubles and singles on this day will be stars from other cities, among them Jimmy Smith of Milwaukee, who is generally regarded as the world's champion among the pin topplers. Smith will compete in the team event with Smith's Arcades of Milwaukee.

M. J. Locker, secretary of the Middle West Association, was here last week, but went back to his home at Des Moines. He will be here Friday morning and remain for the duration of the tournament.

Chicago Bowlers Want Change.  
At the meeting of the Chicago Bowling Association, held last month, a resolution was passed to the effect of recommending a change in Section 3, Article 3, of the Constitution of the American Bowling Congress, which rules that entry fee in each event of a tournament of city bowling associations cannot exceed \$1 per man. It was moved that it be recommended that this rule be changed to read \$2 instead of \$1, and the vote of the meeting was unanimous in favor of such a move.

It was also moved that this matter be presented to Secretary A. L. Langtry, by D. A. Luby, Chicago member of the Executive Committee of the American Bowling Congress, in order that this matter could be considered and voted upon by the members of the Executive Committee at the next convention at Buffalo.

U. S. GOLF BODY WILL  
HOLD MEETING JAN. 7  
NEW YORK, Nov. 17.—Golfing enthusiasts began to speculate today on what cities would be awarded the title events at the annual meeting of the United States Golf Association here on Jan. 7.

In many of the prominent clubs in this vicinity the feeling prevailed that the amateur title is due in the West—possibly St. Louis, Detroit or Chicago—while the open and women's events would be held east of the Alleghenies.

Prominent golfers predicted that the rivalry among cities for these plums in the golfing world would be the keenest in the history of the sport in this country.

AMERICAN DAVIS CUP  
NET TEAM SAILS TODAY  
VICTORIA, B. C., Nov. 17.—Members of the United States Davis tennis cup team were to sail from here today for Australia to play the challenge round for the Davis cup. Exhibition matches were played here by the team last night, in which Watson Washburn defeated Sam Hardy, 6-3.

Marshall Allen of Seattle and William S. Tilden II, world champion, defeated Willie Johnson and D. C. Sawyers, Victoria, B. C., 6-4, 6-3. Johnston and R. V. Thomas, Australia, tied Tilden and Washburn, 5-4, 5-7.

DOING *for* ST. LOUIS

## Home Service—141,000 Cases Helped—Hundreds Still Receiving Help

Mother or wife ill—Allotment delayed—No money or food in the house—Baby crying—Fire out—Family troubles. The St. Louis Chapter Home Service—Angels of Mercy—have made 59,000 visits to our service men's homes. Have given consolation and help in 141,000 cases, including 82,000 office interviews. There are thirteen hundred cases receiving Red Cross Care NOW. Don't you feel that any man, woman or child in this big prosperous city that would not give \$1.00 a year to help this work has neither any gratitude to the men, a heart nor a dollar?

## Baby Service in Five Hundred City Blocks

The Health Center—established as an experiment, has given service to every family in the five hundred city blocks adjacent to the Center. Mothers instructed in pre-natal care—babies cared for—nutrition—hygiene—illness—proper care—All Free. There are hundreds of mothers and babies every day at the Center. It is a beehive of activity. It is all free because you give \$1.00 a year to pay for it. There will be as many more of these centers as are needed, if you will give your dollar for Roll Call.

## The St. Louis Chapter Does These Things

Maintaining an Occupational Therapy shop for the boys at Jefferson Barracks. It is the greatest possible relief to a man who has been confined to the hospital for months—with nothing to do—to find something to do with his hands. Occupational Therapy does this.

Provides supplies for Occupational Therapy at Public Health Hospitals. Maintains two special workers on the staff at the Missouri School of Occupational Therapy, especially for training hospital workers and those working with the handicapped.

## The Junior Red Cross

90,840 school children are members of the Junior Red Cross.

They are being taught many things: kindness, thrift, patriotism and generosity. For instance: These school children are sending \$1000 a month overseas to the destitute children of Europe. Right here at home these children have given \$5000 to community kitchens in two of our public schools for free meals to undernourished indigent children. In six months 11,295 meals were furnished from this fund.

During the Summer 100 children were taken from the Community Kitchen lists and were the guests of Junior Red Cross at Vacation Village at Forest Park, each for a period of two weeks.

Three Hundred Thousand Babies Under One Year  
of Age Die Each Year

Charge up 250,000 lives to ignorance of a few vital principles of baby care. Let's save at least a few of these lives by spreading Baby Gospel.

Your St. Louis Chapter is maintaining five Health Centers—three in the City—one in East St. Louis and one in the County, teaching the needy how to save baby lives. It is giving hundreds of women special courses in home nursing, hygiene, etc.

It maintains a Teaching Center where nurses learn to teach the mothers how to prevent baby deaths, and how to raise them to be strong men and women. Each nurse so trained means this baby gospel is spread to hundreds of mothers in every community in which she may serve. Do you care about these baby deaths? Don't you think the dollar a year membership in the Red Cross is about the best dollar you spend during the year?

Department of Community Kitchens gives service to the people in the congested districts at wholesale cost of food. This is also where the meals are served to the undernourished children.

In co-operation with the government, the St. Louis Chapter maintains a social hygiene clinic at night and special social service workers in the different social hygiene departments.

Supporting ten nurses of the Visiting Nurses' Association.

Seven Hundred and Fifty Handicapped Disabled Men  
Provided With Desirable Work

Through misfortune, disease and industrial accidents there are hundreds of men in the city who have been heretofore unable to support themselves. They were helpless and despondent. The Chapter Bureau for Handicapped Men studied every case, interested employers and got jobs for 750 of these men; jobs they could do, and made them independent—not subjects of charity, but self-respecting and self-supporting men. It is one of the greatest pieces of work the St. Louis Chapter has done for you. Your dollar a year did it.

## Twenty-Six Thousand Boys Still in Hospitals

Twenty-six thousand of our boys are yet in the hospitals in the United States. There are many hundreds in St. Louis, in the three hospitals in our territory. You are giving them real Red Cross service. Your dollar does it.

## St. Louis County Service

There is no hospital in St. Louis County. St. Louis Chapter Red Cross nurses cover the entire county, visiting the sick, spreading the gospel of hygiene, taking care of the babies, maintaining a free health center where mothers can bring their babies and free service is given them. That's service—real service. Your dollar makes it possible.

## Twenty-Seven St. Louis Lives Saved

In that section of the Meramec River patrolled by the Red Cross but two lives were lost—on each in 1919 and 1920. In 1918 fifteen lives were lost—in 1917 eighteen lives were lost. Whether or not you go on the river yourself, is it not worth your dollar to save these valuable young lives?

## Jobs for Soldiers—Free Service

The St. Louis Chapter has gotten jobs for 5000 service men. Free Service. Would you not give a dollar a year to help the boys get jobs? The boys lost their jobs to protect you and yours. Very properly you are getting new jobs for them. It's your Red Cross. Will you help keep it going?

# SUDDEN GENERAL BREAK IN STOCKS FOLLOWS UP TURN

## Further Liquidations and Short Selling Factors in Severe Declines—Exchange on London Higher.

NEW YORK, Nov. 17.—Trading in stocks today began with a firm tone, but this was soon succeeded by renewed selling for account, in which many minimum quotations for the year were recorded. Sales approximated 1,100,000 shares.

Assurances of leading banking interests that the domestic financial situation is fundamentally sound and another brisk advance in British exchange stimulated a demand for stocks at the opening. Investors' rallies scored the most substantial gains. Northern Pacific rising 1 1/2 points and Southern Pacific a large fraction. Mexican Petroleum, Baldwin Locomotive, General Electric, Crutcher Steel and American Sugar comprised the other firm to strong issues. Rubber and copper shares were again inclined, however, to reflect adverse conditions in their respective industries.

Gains were canceled when shortly began a series of drives against Crutcher Steel, shipings and various specialties. Crutcher was attacked on rumors of an indefinite postponement of the long deferred stock dividend. American International continued to react on the lower prices reported for ship charters. Rubbers became heavier on the reduced Ajax dividend. Leaders among rails, industrials and oil fell back 1 to 2 points, but rallied variably before noon.

Call money opened at 8 per cent and exchange on London added to its early advance.

Prices broke sharply at midday, further liquidation and short selling effecting severe declines in special stocks. The break soon embraced industrials and rails, some of which fell under recent low records.

The 6-per-cent rate for call loans failed to check the markets reversal, the general list falling to lower levels later. There were no appreciable rallies at the weak close.

# Wall Street News and Comment

SPECIAL DAILY

By a Special Correspondent of the Post-Dispatch.

NEW YORK, Nov. 17.—The stock market yesterday and the day before had given many signs that the demoralization which had been in the air was passing. Liquidation had been checked in the greater part of the list and the street was beginning to pluck up a certain amount of courage. This tendency to returning confidence was rudely upset by statements published this morning regarding the conference of leading bankers held after business hours yesterday afternoon. If there was any idea that this gathering was to do good, was to offer reassurance in a delicate situation, it was the worst boomerang that the financial district had experienced in a very long while. It was all very well to give out that the banking structure was sound, that the country had not been over-extended as in other periods which have evanished in panic. But at the same time the aggressive bear party was virtually told that it could go ahead without fear of serious opposition because the bankers were expecting continuance of the liquidation both in commodities and securities.

This message was good cheer to speculators for the decline came just at the moment when they were inclined to suspect their activity of fearing that they might have overstepped the bounds. The direct result was that after an advance of last evening, following this morning's certainty, a violent bear attack was launched first at one group of stocks and then at another until the whole market was started again upon the downward path.

Cotton options were drawn along in the decline. The grain markets were not so much affected and sterling exchange so far ran counter to the gloomy surroundings of the day that it added another 4-cent gain to its previous advance of the week. At the same time this gathering was today's top sterling was up over 10 cents in the pound from where it stood at the end of last week and more than 11 cents from its extreme low.

The call money renewal was fixed this morning again at 8 per cent, but by noon the rate had fallen to 7, and in the last hour it got down to 6 per cent. Yet the downpour of liquidation continued.

The buoyancy also left the bond market and the great vitality of the investment demand, which has been the chief sustaining feature for the last two months, was not apparent. Very few stocks were able to resist the violent selling prices of the afternoon. Nearly all of the representative leaders, both industrial and rail, went through their previous low points.

# The Bond Market.

The tone of the bond market was generally heavy, although there was no such weakness as developed in cotton. Liberty 4 1/2's cut down to 84. The effect of the statement from banking quarters that further liquidation in securities was to be looked for necessarily deterred buying in investment no less than in speculative quarters.

The Erie convertibles were helped by the remarkable strength in Erie stocks which stood out as one of the features.

Swiss city bonds held their ground very well. United Kingdom issues were shade lower, as were most of the other Government bonds, but the losses were not important in any case.

Traction bonds were off moderately. Investment bonds held up well.

## MORE TRUTH THAN POETRY

By James J. Montague.

## MORE PROOF AGAINST THE BEE.

Though scientists may disagree I state, as I have often stated, My firm conviction that the bee Is most profoundly over-rated. While many poets sing his praise, Because it's always been a fad to, I know, from studying his ways, He only worked because he had to.

I've said that like all hypocrites, Who gain a bogus reputation, His character would fall to bits Upon a close examination. On my suspicion I've enlarged Till it is far from past believing That this same insect should be charged With sundry petty forms of thieving.

Now note: An honest grocery man, To earn a little needed money, Exposed for sale a large tin can. Of good, but counterfeited honey. But long before he had a chance Among his customers to dole it (Terms cash, and strictly in advance) The scoundrel bee came in and stole it.

An insect low enough to take The money that a man produces And for a little profit's sake Convert it to his own base uses, A bug—so wholly heartless must Be all I've previously stated, And consequently now, I trust, My views of him are vindicated.

## PLENTY OF MATERIAL.

A cabinet member doesn't need to be born in the United States, so Mr. Harding will have to look over about forty million applications before March 4.

## UNFORTUNATE.

Don't envy the man who lives in a brownstone house. He can't pull down the partitions to burn in the furnace this winter.

## Helps for Honeymooners.

The happy couple were on their way to Scotland. They had to change trains at Carlisle, and an obliging porter, while struggling with their luggage, made mental note of the fact that the young woman's hair was dotted with rice.

Presently he approached the glad young man, and pulling a folded paper from his pocket, said: "Here's a present for you, sir, with the company's compliments."

"Indeed!" said the traveler. "What is it?"

"A railway map, sir."

"Oh, thank you. And what are these marks in blue pencil?"

"There's the beauty of it, sir," said the smiling porter. "Those marks show just where the tunnels are and their length."—Pittsburgh Chronicle-Telegraph.

"There must be some mistake in my examination marking. I don't think I deserve an absolute zero," complained the student.

"Neither do I," agreed the professor, "but it's the lowest mark I'm allowed to give."—Spare Moments.

## The Passing Throng.

The native of New York had brought his Ozark cousin to see the sights. Together they gazed to the cloud-swept upper stories of the Woolworth building, mounted the Statue of Liberty, and did the weird curb market. Finally they stood at the corner of Fifth avenue and Forty-second street, waiting for a chance to dodge the long procession of automobiles and throngs of pedestrians.

The Ozarkian calmly watched the hustling thousands. Then he turned to his friend.

"Picnic in town?" he inquired.—American Legion Weekly.

## One Way of Argument.

Gibson: "I must have convinced Partridge."

Benjamin: "Why do you think that?"

"Why he held opposite views to me at first, but later he readily agreed with me."

"Perhaps you only tired him."—London Answers.
